

Sustaining Excellence & Increasing Our Lead

2024 REPORT OF POLITICAL AND FINANCIAL CONTRIBUTIONS

Political and Policy Participation

As a biopharmaceutical company that develops treatment for serious diseases, we play an important role in public health. We believe it is important for our company to be a responsible participant in political and public policy debates around the world. Our engagement in the political arena helps ensure that patients have access to needed medications—leading to improved patient outcomes. Through public policy engagement, we provide a way for all our locations globally to offer Lilly’s perspective on the political environment in a manner that supports access to innovative medicines. We also look for ways to engage on issues specific to local business environments.

Our public policy efforts center on three key areas: innovation; health care delivery; and pricing and reimbursement. We disclose our lobbying activities in compliance with the Lobbying Disclosure Act. For additional information on Lilly’s positions on healthcare policies, please see Lilly’s [public policy website](#).

Federal and State Lobbying Activities

Lilly conducts direct lobbying efforts at the federal, state, and local levels to educate policymakers on the specific implications that various legislation may have on the company, our community, and patients. Lilly’s Senior Vice President of Global Government Affairs is responsible for the company’s lobbying activities.

When engaging in lobbying activities, we comply with the laws that govern such activities. Lilly employees must also comply with our global policies, core values, and legal obligations, which are outlined in our written Code of Business Conduct, The Red Book.

Lilly complies with the Lobbying Disclosure Act and files quarterly reports that include information regarding our federal lobbying expenditures. These reports may be viewed on the U.S. Senate Lobbying Disclosure Act Database [website](#). In all states where we operate, we comply with state registration and reporting requirements. Our state reporting may be viewed on each state’s lobbying disclosure website. Lilly voluntarily provides [this chart](#) for locating its disclosures on each state’s website.

In 2024, Lilly spent \$7,890,000 on U.S. federal lobbying activities, which includes, but is not limited to, compensation and benefits for staff members, payment of external consultants, policy research funding, and travel expenses.

Political Contributions to Candidates for Public Office

Our political contributions promote the interests of the company and the patients and customers we serve. They are made without regard to the partisan affiliation of the candidate or the private political preferences of our officers and directors. LillyPAC and corporate contributions are made based on several criteria, including:

- Voting record or announced positions on issues important to Lilly
- Demonstrated leadership on key committees of importance to our business
- Potential for legislative leadership
- Dedication to improving the relationship between business and government

- Representation of a state or district where Lilly has a facility or large concentration of employees

LillyPAC Employee Grassroots Program

In addition to the collective efforts of our federal and state government affairs teams, we've built the LillyPAC Grassroots Program to allow employees to engage in the important policy and regulatory discussions happening in Washington, D.C. and in state capitals across the country. The LillyPAC Grassroots Program provides employees with the opportunity to learn more about Lilly's public policy priorities and how those issues impact our business and the patients we serve.

LillyPAC

Lilly's Political Action Committee (LillyPAC) is funded solely by voluntary contributions from eligible employees, and it supports political candidates of all parties at the local, state, and federal level who understand the policies that advance a positive environment for biopharmaceutical innovation. The LillyPAC governing board is comprised of 16 U.S.-based employees who represent business areas throughout the company. LillyPAC voluntarily discloses its contributions and in 2022 began disclosing them on a biannual basis. Links to previous reports can be found [here](#).

Corporate Political Contributions

Corporate political contributions are made to state candidates and committees, where permissible. Lilly's Senior Vice President of Global Government Affairs reviews and approves all corporate political contributions to ensure these contributions are consistent with the company's guidelines and in accordance with applicable laws. The company's General Counsel and the Chief Financial Officer, or their designees, also approve all corporate political contributions before they are made.

Lilly voluntarily discloses its corporate contributions on a biannual basis.

Trade Association Memberships

Lilly maintains memberships in organizations that report lobbying activity to the U.S. federal government, including the Pharmaceutical Research and Manufacturers of America, the National Association of Manufacturers, the Biotechnology Innovation Organization, and the Business Roundtable. We support organizations that champion public policies that contribute to pharmaceutical innovation, healthy patients, and a healthy business climate. Our membership in these organizations is evaluated annually by the company's Government Affairs leaders based on the organization's expertise in healthcare policy and advocacy and support of key issues of importance to Lilly.

In addition to their positions on health care and business policy issues, we recognize that these organizations may engage in a broad range of other issues that extend beyond the scope of what is of primary importance to Lilly. If concerns arise about an organization's activities or involvement, we convey our concerns to these groups. We believe there is value in making sure our positions on issues important to Lilly and our industry are communicated and understood within those organizations. Lilly's membership in these groups comes with the understanding that we may not always agree with the positions of the larger organization and/or other members.

Below are the memberships in organizations to which Lilly paid annual membership dues of \$50,000 or more in 2024, and which lobby in the U.S. at the federal and state level, as well as the percentage of dues collected from member companies utilized by that organization for federal and state lobbying and political expenditures. If Lilly has a board seat in any of those organizations, the board seat is also disclosed and noted with an asterisk.

- AdvaMed (14%)
- Alliance for Regenerative Medicine* (12%)
- BIOCOM California* (10%)
- Biotechnology Innovation Organization* (23%)
- Business Roundtable* (24%)
- Greater Indianapolis Chamber* (5%)
- Indiana Chamber of Commerce (12%)
- National Association of Manufacturers* (22%)
- Pharmaceutical Research and Manufacturers of America* (33%)
- U.S. Chamber of Commerce (40%)

LillyPAC Federal Contributions Total

\$592,500

Contribution Limits

\$5,000 per primary and general election to a federal candidate's campaign committee.

\$15,000 per calendar year to each national party committee, such as the Democratic and Republican national, senatorial and congressional campaign committees.

\$5,000 per year to a federal incumbent's leadership PAC. Leadership PACs may be sponsored by members of Congress to support other candidates from their political party. These are separate from a member's campaign committee.

\$5,000 per year to a state or local party committee.

Limits on contributions to state or local candidates and political committees vary by state.
