

Use Actuals, NOT AVERAGES

Market-Based Approach

VS.

DOE Index Program

Real-time fuel prices, updated daily

TIME

Averaged fuel price, updated weekly

True market cost of fuel along your specific lane

PRICE

Price based on a national average retail sample of less than 10% of fueling stations

Reflective of your carrier's tax exposure by state

TAX

Tax exposure unaccounted for

Calculations specific to where your goods travel

GEOGRAPHY

One price for the entire country

Breakthrough.

Breakthrough uses a market-based approach to allow shippers to reimburse with real-time fuel prices. With this program, you will receive:

Industry Insights

Freight and fuel benchmarks, best practices, and forecasts

Savings

Save an average of \$0.30/gallon on every movement

Competitive Advantage

Understand your true cost of fuel and make data-based decisions

**READY TO
DITCH THE DOE?**
