

BREWER'S HALL

Just a few steps away from our Experimental brewery, the Brewer's Hall captures the art and history of Guinness. The space is perfectly formatted for all events, corporate and social, and offers a seamless ability to include Tours and Experiences. Your guests can be guided through an informative tour of the active brewery, with a tasting and reception to follow. With the standing capacity of 100 guests or 55 seated, there are a number of layouts favorable in this space.

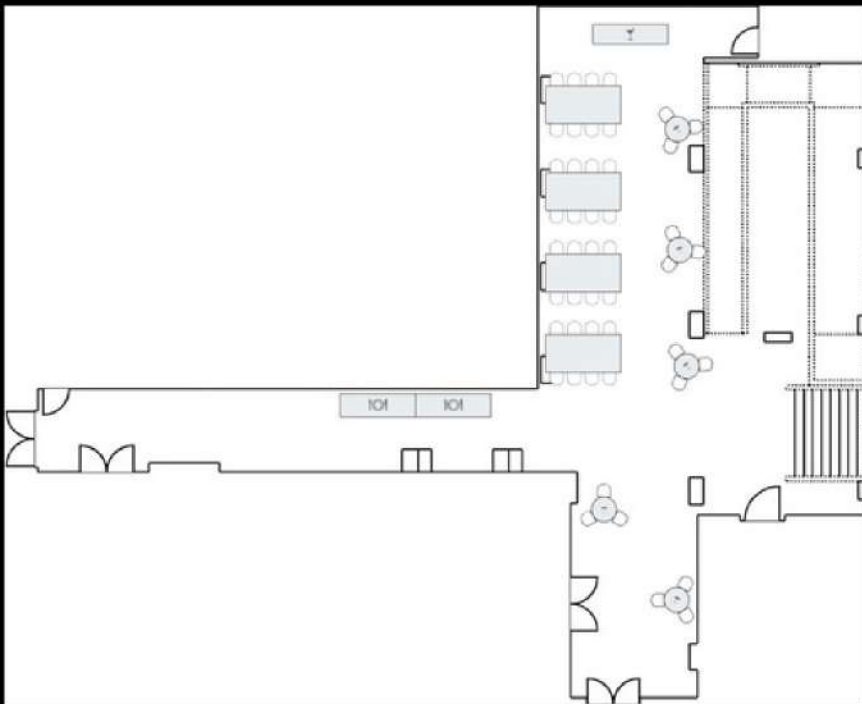

Attached photos show the possibilities of the room's floorplan, though it can be customized to reception-style with seating available or full cocktail-style with high-tops and stools.
