PROJECT VERITAS SEEKS: WEB DEVELOPER

Project Veritas seeks a skilled web developer who will be responsible for developing and designing websites and social media accounts in support of our journalists in the field. You will be working alongside a team in creating unique and specific website designs and complimentary social media accounts.

Veritas is one of the most unique and fastest-growing, mission-driven nonprofits in the world. We define our communications, digital marketing and media efforts as the targeted, measurable, and interactive marketing and distribution of our content, using digital technologies to reach and convert viewers into supporters and donors, and retain them. The key objective is to promote our content, build awareness, engage with viewers, supporters, donors and "whistleblowers," and increase donations through digital and other marketing and all forms of media relationships and interaction.

OVERARCHING TALENT REQUIREMENT

In order to be successful in this role, you will need to be mission-driven, aligned with our core values, possess a keen sense of operational security and must be proficient in JavaScript, HTML, CSS, and WordPress, including branding and graphic design.

KEY RESPONSIBILITIES

- Working in collaboration with journalists in designing, building, and maintaining websites in support of our mission.
- Using scripting or authoring languages, management tools, content creation tools, applications, and digital media to create websites that are specific in nature, working within parameters set by team members and leadership.
- Creating branding and logos for the websites to also be incorporated into social media accounts.
- Conferring with teams to resolve conflicts, prioritize needs, develop content criteria, or choose solutions.
- Performing any Website updates.
- Editing, writing, or designing Website content.

SKILLS AND EXPERIENCE:

- Proficient in JavaScript, HTML, CSS, WordPress (or similar).
- Experience demonstrating a high level of operational security.
- Dedicated team player with a mission-driven approach.
- Ability to thrive in a fast-paced environment.
- Solid ability in both written and verbal communication.
- Knowledge of programming language and technical terminology.
- Able to receive, develop and implement specific ideas.
- High degree of independent judgment.

This is a remote, per-project contract position. Relocation is not required.

Qualified candidates should apply at www.projectveritas/jobs.
