

SAMPLE LETTER OF RECOMMENDATION FOR ENGINEERING COURSES

The below sample letter of recommendation has been written by a professor for a student who wishes to pursue his engineering degree at a reputable institute abroad.

Sample 1:

Letter written by a professor for a student who wishes to pursue an MSc in Electronic Engineering at the University of Kent.

November 21, 2017

Mumbai

Dear Susan,

I am Professor Ashutosh Kumar - Department of Electrical and Electronic Studies - Tagore College. I would like to recommend my student Ms. Priya Kumar a place on the MSc Electronic Engineering course at the University of Kent.

Priya has been an exceptional student and has secured an overall score of 8.75 in a maximum possible academic rating of 10 points. Her project in the final semester of study was on a low-cost solar-powered portable light cum fan. The project was rated highly by the examiners, and her prototype is working perfectly. She has excellent communication skills, and aspires to be a scientist and develop low-cost lighting solutions.

In addition to being an excellent student, Priya is also a talented musician and plays the violin. She is also a passionate painter and has won many prizes in both painting and music performance.

I am proud to have guided her in her project and would like to recommend her for a place at the University of Kent on the MSc Electronic Engineering course.

Thanking you.

Sincerely,

Ashutosh Kumar

Associate Professor – Department of Electrical and Electronic Studies, Tagore College
