

General Dynamics Small Business Programs

General Dynamics is a global aerospace and defense company with a portfolio spans the realm of the world's most technologically advanced business jets, wheeled combat vehicles, command and control systems and nuclear submarines. We offer these through our four key business groups: Aerospace, Marine Systems, Combat Systems and Technologies. Each business unit has a Small Business program that addresses its unique business requirements.

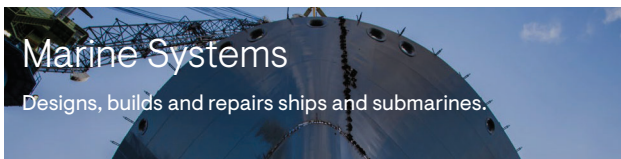

We invite you to research each Business to determine which best fits your customer base. Provided below are high-level summaries of each GD Business, contact information, and website address.

GULFSTREAM AEROSPACE CORP. invented the first purpose-built business jet in 1958, and today, continues to produce the world's most technologically advanced business aircraft, offering unmatched global product support and service.

JET AVIATION provides comprehensive business aviation services, custom completions and a global network of facilities to aircraft owners and operators.
