TABLE OF CONTENTS

PRELIMINARY STATEMENT 1

BACKGROUND2

 A. The Commodity Exchange Act provides the regulatory framework
for commodity derivatives markets in the United States, including
event contract markets2

 B. Arizona unlawfully attempts to apply state gambling laws to CFTC-
regulated derivatives markets5

LEGAL STANDARD6

ARGUMENT6

 I. PLAINTIFFS HAVE STANDING6

 II. PLAINTIFFS ARE LIKELY TO SUCCEED IN ESTABLISHING
THAT FEDERAL LAW PREEMPTS STATE LAW AS TO
COMMODITY DERIVATIVES TRANSACTIONS ON CFTC-
REGULATED DCMs.....8

 A. The challenged Arizona statutes are preempted as applied to
commodities derivatives contracts..... 10

 1. Event contracts are “swaps” under the CEA..... 10

 2. The CEA expressly preempts state law..... 14

 3. The CEA occupies the field of derivatives trading
regulation, preempting application of state law 15

 4. Arizona’s application of its state laws conflicts with the
CEA 17

 III. THE REMAINING FACTORS FAVOR GRANTING
PRELIMINARY RELIEF 19

CONCLUSION.....20

PRELIMINARY STATEMENT

1
2 Plaintiffs United States of America (“USA”) and Commodity Futures
3 Trading Commission (“CFTC”), a federal executive agency, seek a temporary
4 restraining order and a preliminary injunction from this Court to halt Defendants’
5 ongoing attempts to assert jurisdiction over federally regulated interstate
6 commodity derivatives markets, thus unconstitutionally intruding on the CFTC’s
7 exclusive regulatory jurisdiction. Defendants (or “Arizona”) first issued cease and
8 desist letters to CFTC-regulated “designated contract markets” (“DCMs”)
9 demanding that they cease operating in Arizona or face civil penalties. Then, after
10 the commencement of a civil lawsuit by a CFTC-regulated DCM, KalshiEx LLC,
11 Arizona, attempting to subvert this Court’s jurisdiction, filed criminal charges
12 against Kalshi, alleging violations of Arizona gambling laws. An arraignment in
13 the criminal case against Kalshi is currently scheduled for April 13, 2026. *See* ECF
14 No. 42-1 at 4.

15 Arizona’s use of ever-escalating action against a CFTC-regulated DCM that
16 is engaging in federally regulated activity violates the Supremacy Clause. The
17 Commodity Exchange Act (“CEA” or the “Act”), 7 U.S.C. §1, *et seq.*, expressly
18 and implicitly preempts state gambling laws as applied to CFTC-regulated markets
19 and market participants. The CEA provides a comprehensive framework for the
20 regulation of derivatives transactions in the United States and designates the CFTC
21 as the federal agency with “exclusive jurisdiction” over the regulation of
22 commodity futures, options, and swaps traded on federally regulated exchanges.
23 7 U.S.C. § 2(a)(1)(A). And the event contracts offered by Kalshi and other CFTC-
24 regulated DCMs—including event contracts where the underlying event relates to
25 sports or politics—are “swaps” under the plain meaning of the CEA. *See KalshiEx,*
26 *LLC v. Flaherty*, No. 25-1922, 2026 WL 924004, at *3 (3d Cir. Apr. 6, 2026)
27 (“Because Kalshi’s sports-related event contracts are traded on a CFTC-licensed
28 DCM and depend on event outcomes associated with economic consequences, they

1 fit within the Act’s definition of ‘swaps’ subject to the CFTC’s jurisdiction.”).

2 Reading the CEA’s definition of “swap” to be more circumscribed than the
3 plain text would allow Arizona to regulate developing event contracts markets and
4 would risk state regulation of event contracts that have long been traded
5 uncontroversially on CFTC-regulated DCMs, like contracts on the weather or
6 agricultural production. Subjecting those markets to a patchwork of 50 state
7 regulations is precisely what Congress sought to avoid with the CEA, including
8 with decades of amendments to the Act that enhanced the CEA’s preemptive effect.

9 Because the CEA preempts the application of Arizona gambling laws to
10 CFTC-regulated markets and market participants, this Court should halt Arizona’s
11 increasingly aggressive enforcement of its inapplicable laws against DCMs by
12 entering a temporary restraining order and a preliminary injunction.

13 BACKGROUND

14 **A. The Commodity Exchange Act provides the regulatory framework for** 15 **commodity derivatives markets in the United States, including event** 16 **contract markets**

17 The CEA provides a comprehensive framework that governs transactions in
18 United States commodity derivatives markets. The CFTC is the federal executive
19 agency that administers the CEA, enforces its provisions in federal courts,¹ and
20 regulates derivatives markets. A “derivative” is a financial instrument, such as a
21 future, option, or swap, for which the price is directly dependent upon—that is,
22 “derived from”—the value of something else, such as an agricultural or financial
commodity.² An “event contract” is a type of swap that provides for payment that

23 ¹ The CFTC has statutory authority to “bring an action in . . . [a] district court
24 . . . to enjoin . . . or enforce compliance with [the CEA]” if “it shall appear to the
25 Commission” that any “person has engaged, is engaging, or is about to engage in any act
26 or practice constituting a violation of any provision of this chapter or any rule, regulation,
or order thereunder, or is restraining trading in any commodity for future deliver or any
swap.” 7 U.S.C. § 13a-1(a).

27 ² CFTC, *Futures Glossary: A Guide to the Language of the Futures Industry*,
28 <https://www.cftc.gov/LearnAndProtect/AdvisoriesAndArticles/CFTCGlossary/index.htm>.

1 is “dependent on the occurrence, non-occurrence, or the extent of the occurrence
2 of an event or contingency associated with a potential financial, economic, or
3 commercial consequence.” 7 U.S.C. § 1a(47)(A)(ii).³ For example, an event
4 contract might be based on the occurrence, nonoccurrence, or extent of an
5 occurrence of a weather event such as snowfall or rainfall, a Federal Reserve Board
6 rate increase, a particular election result, or the result of a sports event.

7 The CEA and CFTC regulations establish important protections for
8 derivatives markets, market participants, and the public by creating uniform
9 regulations of nationwide—and often international—markets. The CEA’s purpose
10 is to “serve the public interests . . . through a system of effective self-regulation of
11 trading facilities, clearing systems, market participants and market professionals
12 under the oversight of the Commission,” as well as “to deter and prevent price
13 manipulation or any other disruptions to market integrity; to ensure the financial
14 integrity of all transactions subject to [the Act] and the avoidance of systemic risk;
15 to protect all market participants from fraudulent or other abusive sales practices
16 and misuses of customer assets; and to promote responsible innovation and fair
17 competition among boards of trade, other markets and market participants.”
18 7 U.S.C. § 5(b).

19 Transactions subject to the CEA “are affected with a national public interest
20 by providing a means for managing and assuming price risks, discovering prices,
21 or disseminating pricing information through trading in liquid, fair and financially
22 secure trading facilities.” 7 U.S.C. § 5. In other words, Congress specifically
23 identified a public interest in federal regulation of derivatives markets because
24 those markets provide a means to “hedge” economic risks. “Hedging” is generally
25 understood to be the use of derivatives to manage the various price risks incidental

26
27 ³ Depending on their structure, event contracts may also satisfy other prongs of
28 the swap definition—for example, as “option[s] of any kind” that are “based on the value”
of an index, quantitative measure, or other financial or economic interest. 7 U.S.C. §
1a(47)(A)(i).

1 to commercial activity.⁴ Like securities markets, the derivatives markets also
2 include “speculators” who trade to profit from price movements, despite having no
3 use for the underlying commodity. Speculators are important because they help
4 ensure that hedgers can find counterparties with whom to trade.

5 Many derivatives are required to be traded on a designated contract market
6 (DCM), the statutory term for a derivatives exchange registered with, and regulated
7 by, the CFTC. Futures contracts must be traded on a DCM or a registered foreign
8 board of trade (see 7 U.S.C. § 6 and 17 C.F.R. § 48.3); many swaps must be traded
9 on a registered swap execution facility or a DCM (see 7 U.S.C. §§ 2(e) and 7b-3(a)
10 and 17 C.F.R. § 37.3); and commodity options must likewise be conducted on a
11 DCM (see 7 U.S.C. § 6c(b) and 17 C.F.R. § 32.2).

12 DCMs are national boards of trade or exchanges that operate under the
13 regulatory oversight of the CFTC pursuant to Section 5 of the CEA, 7 U.S.C. § 7.
14 The CFTC designates a board of trade as a contract market through a formal
15 application process through which an applicant must demonstrate its ability to
16 comply with detailed statutory requirements called “core principles.” 7 U.S.C.
17 § 7(d). These core principles require, for example, that DCMs:

- 18 • establish, monitor, and enforce compliance with the rules of the
19 market including access requirements, the terms and conditions of any
20 contracts to be traded, and rules prohibiting abusive trade practices,
21 17 C.F.R. § 38.150(a) (Core Principle 2),
- 22 • have the capacity to detect, investigate, and apply appropriate
23 sanctions to any person that violates any rule of the market, 17 C.F.R.

24
25 ⁴ For instance, airlines that need to buy jet fuel in the foreseeable future might
26 manage the risk that the price will increase by entering into a derivative contract, *e.g.* a
27 futures contract, to hedge against that risk. It would take a “long” position, *i.e.*, a futures
28 contract that will increase in value if the price of the airline’s fuel increases. On the other
hand, a fuel supplier might manage the risk that the price of oil will decline by taking a
“short” position, *i.e.*, a futures contract that will increase in value if the price of fuel goes
down.

1 § 38.150(b) (Core Principle 2),

- 2 • list only contracts that are not readily susceptible to manipulation,
3 17 C.F.R. § 38.200 (Core Principle 3),
- 4 • have the capacity and responsibility to prevent manipulation, price
5 distortion, and disruptions of the delivery or cash-settlement process
6 through market surveillance, compliance, and enforcement practices
7 and procedures, including methods for conducting real-time
8 monitoring of trading and comprehensive and accurate trade
9 reconstructions, 17 C.F.R. § 38.250 (Core Principle 4),
- 10 • provide a competitive, open and efficient market and mechanism for
11 executing transactions that protects the price discovery process,
12 17 C.F.R. § 38.500 (Core Principle 9),
- 13 • maintain rules and procedures to provide for the recording and safe
14 storage of all identifying trade information in a manner that enables
15 the contract market to use the information to assist in the prevention
16 of customer and market abuses and to provide evidence of any
17 violations of the rules of the contract market, 17 C.F.R. § 35.550
18 (Core Principle 10).

19 Today 25 exchanges in the United States have active designations from the
20 CFTC to operate as a contract market. These DCMs include KalshiEx LLC.

21 **B. Arizona unlawfully attempts to apply state gambling laws to CFTC-**
22 **regulated derivatives markets**

23 On May 21, 2025, the Arizona Department of Gaming, through its Chief
24 Law Enforcement Officer, Douglas Jensen, issued a cease-and-desist letter to a
25 CFTC-regulated DCM, KalshiEx LLC and its CEO. The letter accuses Kalshi of
26 accepting illegal wagers in violation of Arizona law. USA Compl. ¶ 59. Ten
27 months later and two months after Kalshi filed suit against Arizona and the
28 Department of Gaming, see ECF No. 1, Arizona filed a criminal information,

1 charging KalshiEx LLC and Kalshi Trading LLC with violations of Arizona
2 gambling laws including charges of “Betting and Wagering” in violation of various
3 state laws. *See* USA Compl. ¶ 61.

4 **LEGAL STANDARD**

5 A plaintiff seeking a preliminary injunction must establish that it “is likely
6 to succeed on the merits, that [it] is likely to suffer irreparable harm in the absence
7 of preliminary relief, that the balance of equities tips in his favor, and that an
8 injunction is in the public interest.” *Winter v. Nat. Res. Def. Council, Inc.*, 555
9 U.S. 7, 20 (2008). “The standard for issuing a temporary restraining order is the
10 same as the standard for issuing a preliminary injunction.” *Arizona All. for Retired*
11 *Americans v. Clean Elections USA*, 638 F. Supp. 3d 1033, 1039 (D. Ariz. 2022).

12 **ARGUMENT**

13 This Court should enter a temporary restraining order and a preliminary
14 injunction because Arizona gambling laws are preempted as applied to federally
15 regulated DCMs listing swaps, and Arizona’s aggressive enforcement of its
16 preempted state laws—including through its unprecedented use of criminal law to
17 intimidate federally regulated entities and, ultimately, disrupt the operation of
18 federally regulated markets—causes irreparable harm to the federal plaintiffs.

19 **I. PLAINTIFFS HAVE STANDING**

20 Standing requires Plaintiffs to “have (1) suffered an injury in fact, (2) that is
21 fairly traceable to the challenged conduct of the defendant, and (3) that is likely to
22 be redressed by a favorable judicial decision.” *Spokeo, Inc. v. Robins*, 578 U.S.
23 330, 338 (2016). To establish an injury in fact, Plaintiffs must demonstrate “an
24 invasion of a legally protected interest” that is “concrete and particularized” and
25 “actual or imminent, not conjectural or hypothetical[.]” *Lujan v. Defs. of Wildlife*,
26 504 U.S. 555, 560 (1992)

27 Plaintiffs have at least two legally protected “sovereign injuries” that
28 Defendants’ conduct have invaded. *Arizona v. Yellen*, 34 F.4th 841, 852-53 (9th

1 Cir. 2022); *see also In re Debs*, 158 U.S. 564, 586 (1895); *Alfred L. Snapp & Son,*
2 *Inc. v. Puerto Rico ex rel. Barez*, 458 U.S. 592, 601 (1982). First, the Supreme
3 Court stated that “[i]t is beyond doubt” that a complaint “asserts an injury to the
4 United States” if it alleges an “injury to [U.S.] sovereignty arising from violation
5 of its laws.” *Vermont Agency of Nat. Res. v. United States ex rel. Stevens*, 529 U.S.
6 765, 771 (2000). For example, “when the SEC brings a civil enforcement action
7 or the United States brings a criminal action under the securities laws, ‘issues such
8 as standing . . .’ are irrelevant.” *S.E.C. v. Gaspar*, No. 83 Civ. 3037, 1985 WL
9 521, at *16 (S.D.N.Y. Apr. 16, 1985). This is true even though the United States
10 is not injured in a traditional sense when it brings a criminal or civil enforcement
11 action to vindicate federal law and the public interest. *See United States v.*
12 *Missouri*, 114 F.4th 980, 984-85 (8th Cir. 2024) (“The United States has a legally
13 protected interest in enforcing federal law.”). As noted, the CFTC has the
14 “exclusive jurisdiction” to regulate DCMs, 7 U.S.C. § 2(a)(1)(A), and can likewise
15 bring civil suits to enforce its authority, 7 U.S.C. § 13a-1(a). Defendants are
16 violating this exclusive jurisdiction and the Supremacy Clause by stepping into a
17 realm that Congress expressly and implicitly reserved solely for the CFTC.

18 Second, and relatedly, “[t]he United States suffers injury when its valid laws
19 in a domain of federal authority are undermined by impermissible state
20 regulations.” *United States v. Alabama*, 691 F.3d 1269, 1301 (11th Cir. 2012); *see*
21 *also McCulloch v. Maryland*, 17 U.S. (4 Wheat.) 316, 361 (1819) (“states are
22 prohibited from passing any acts which shall be repugnant to a law of the United
23 States.”). Indeed, the United States regularly brings preemption lawsuits to
24 invalidate state laws that are contrary to federal law. *See, e.g., id.; Arizona v.*
25 *United States*, 567 U.S. 387, 394 (2012); *United States v. South Carolina*, 720 F.3d
26 518, 528 (4th Cir. 2013). Here, Arizona’s attempts to regulate DCMs undermines
27 and conflicts with the CFTC’s exclusive and preemptive jurisdiction. It thus
28 undermines the agency’s regulatory authority, the uniformity of federal law, and

1 can subject DCMs to a patchwork of 50 state regulations contrary to Congress’s
2 goals. In doing so, Arizona at least directly violates and undermines the CFTC’s
3 regulation requiring “impartial access” to all eligible participants nationwide. 17
4 C.F.R. § 38.151(b). Arizona’s disruption of this regulatory authority constitutes a
5 cognizable injury.

6 Even if more was required, however, this patchwork makes it much more
7 difficult for the agency to uniformly regulate DCMs. Because Congress granted
8 the CFTC “exclusive authority” over DCMs, it is not equipped to manage markets
9 that are subject both to the CEA and to a patchwork of state regulations. As a
10 result, Defendants’ actions undermine CFTC’s authority and require additional
11 agency resources to engage in regulatory oversight of these DCMs. That is a
12 classic Article III injury.

13 These injuries are caused by Defendants’ attempts to regulate CFTC
14 regulated DCMs under state laws in violation of CFTC’s “exclusive jurisdiction”
15 and the Supremacy Clause. An injunction against Defendants’ efforts to apply its
16 laws to those federally regulated DCMs would redress the Plaintiffs’ sovereign
17 injury.

18 **II. PLAINTIFFS ARE LIKELY TO SUCCEED IN ESTABLISHING**
19 **THAT FEDERAL LAW PREEMPTS STATE LAW AS TO**
20 **COMMODITY DERIVATIVES TRANSACTIONS ON CFTC-**
21 **REGULATED DCMs**

22 The United States and its agencies are entitled to a preliminary injunction
23 against a State when federal plaintiffs establish a likelihood to succeed in
24 establishing state law is preempted. *Arizona*, 567 U.S. at 394 (upholding a
25 preliminary injunction against an Arizona immigration law because the federal
26 government occupies the field of immigration). Where Congress makes “a single
27 sovereign responsible for maintaining a comprehensive and unified system” of
28 regulation, allowing states to regulate the same field “detract[s] from the
“integrated scheme of regulation” created by Congress.” *Id.* at 401-02 (quoting

1 *Wisconsin Dept. of Industry v. Gould Inc.*, 475 U.S. 282, 288-89 (1986)).

2 Arizona’s attempt to shut down federally regulated DCMs intrudes on the
3 federal scheme Congress designed to oversee national swaps markets. Prompted
4 by the evolution of national financial markets and repeated conflicts with a
5 patchwork of state laws, Congress enacted the CEA, granting the CFTC exclusive
6 jurisdiction to regulate those markets and enacting a comprehensive federal
7 regulatory framework that expressly preempts state laws that attempt to regulate
8 the operation of, or transactions on, CFTC-regulated exchanges. *See* USA Compl.
9 ¶¶ 38-54. This comprehensive federal regulatory scheme preempts Arizona law as
10 applied to event contracts traded on federally regulated exchanges.

11 By describing event contracts as “bets” or “wagers,” *see, e.g.*, ECF No. 18
12 at 16, 18, Arizona misconstrues both the nature of these contracts offered on
13 CFTC-regulated DCMs and the federal regulatory framework. Arizona’s limited
14 and superficial review of fundamentally different products explains much of the
15 confusion. *Id.* at 16-17. Contracts where the underlying event is a sporting event
16 or an election function no differently than event contracts predicated on the
17 weather, or the price of oil rising above a certain level.

18 And the CEA is clear that the CFTC has “exclusive jurisdiction” over event
19 contracts that are swaps. 7 U.S.C. 2(a)(1)(A). Event contracts, including sports-
20 related or political event contracts that are listed on DCMs, are covered by the
21 CEA, and the CEA prohibits States from invading the CFTC’s exclusive
22 jurisdiction over event contract transactions offered by and executed on federally
23 regulated DCMs. By prohibiting these DCMs from operating in Arizona without
24 an Arizona license or by conditioning their operation on compliance with Arizona
25 laws and regulations, Arizona directly interferes with the CFTC’s authority
26 pursuant to the federal scheme imposed by Congress through the CEA.

27 Arizona’s interference with federally regulated DCMs is preempted. This
28 Court should halt the ongoing efforts by Defendants to undermine the uniform

1 application of federal law by enjoining Arizona from applying laws related to
2 betting and wagering to event contract swaps listed for trading on CFTC-regulated
3 DCMs. Unless restrained and enjoined by the Court, Defendants are likely to
4 continue their attempts to subvert federal law and the exclusive jurisdiction to
5 regulate event contract swaps conferred on the CFTC by Congress.

6 **A. The challenged Arizona statutes are preempted as applied to**
7 **commodities derivatives contracts**

8 The Constitution’s Supremacy Clause mandates that “[t]his Constitution,
9 and the Laws of the United States which shall be made in Pursuance thereof . . .
10 shall be the supreme Law of the Land . . . any Thing in the Constitution or Laws
11 of any State to the Contrary notwithstanding.” U.S. Const. art. VI, cl. 2.

12 The CEA, as continuously refined over more than a century, gives the CFTC
13 “exclusive jurisdiction” over futures and swaps traded on a DCM. 7 U.S.C.
14 § 2(a)(1)(A). The CEA “preempts the application of state law.” *Leist v. Simplot*,
15 638 F.2d 283, 322 (2d Cir. 1980). “[P]reemption is appropriate ‘[w]hen
16 application of state law would directly affect trading on or the operation of a futures
17 market.’” *Effex Cap., LLC v. National Futures Ass’n*, 933 F.3d 882, 894 (7th Cir.
18 2019) (quoting *Am. Ag. Movement v. Bd. of Trade of Chi.*, 977 F.2d 1147, 1156-
19 57 (7th Cir. 1992)).

20 “[U]nder the Supremacy Clause, from which our pre-emption doctrine is
21 derived, any state law, however clearly within a State’s acknowledged power,
22 which interferes with or is contrary to federal law, must yield.” *Gade v. National*
23 *Solid Wastes Mgmt. Ass’n*, 505 U.S. 88, 108 (1992) (internal citation omitted);
24 *Time Warner Cable v. Doyle*, 66 F.3d 867, 874 (7th Cir. 1995) (“Congress, in the
25 exercise of the legislative authority granted to it by the Constitution, may preempt
26 state law.” (citation omitted)). “A federal law may preempt a state law expressly,
27 impliedly through the doctrine of conflict preemption, or through the doctrine of
28 field (also known as complete) preemption.” *Boomer v. AT & T Corp.*, 309 F.3d

1 404, 417 (7th Cir. 2002). Arizona’s laws as applied to federally regulated DCMs
2 are expressly and implicitly preempted.

3 **1. Event contracts are “swaps” under the CEA**

4 Event contracts are swaps as defined by the CEA. “In all cases of statutory
5 interpretation,” the analysis must “start with the text.” *United States v. Gear*,
6 9 F.4th 1040, 1044 (9th Cir. 2021). The Act defines “swap” to include “any
7 agreement, contract, or transaction . . . that provides for any purchase, sale,
8 payment, or delivery . . . that is dependent on the occurrence, nonoccurrence, or
9 the extent of the occurrence of an event or contingency *associated with a potential*
10 *financial, economic, or commercial consequence.*” 7 U.S.C. § 1a(47)(A)(ii)
11 (emphasis added). Event contracts, including sports event contracts, are settled
12 based on the occurrence or non-occurrence of a specified future event, like the
13 occurrence of a weather event or the outcome of an election or sporting event. And
14 those occurrences are “associated with [] potential financial, economic, or
15 commercial consequence[s]”—a storm affects shipping and crops; an election
16 affects tax and spending policy; and a sporting event affects ticket and merchandise
17 sales, advertising, brand endorsements, vendors, lodging businesses, and food and
18 beverage services. *Id.*; *see also KalshiEx*, 2026 WL 924004 at *3 (listing similar
19 examples).

20 Event contracts often also qualify as binary options under the CEA, which
21 are a “option[s] whose payoff is either a fixed amount or zero.”⁵ As binary options,
22 event contracts are also swaps under 7 U.S.C. § 1a(47)(A)(i), which defines
23 “swap,” to include “any agreement, contract, or transaction . . . that is a[n] . . .
24 option of any kind that is for the purchase or sale, or based on the value, of 1 or
25 more . . . quantitative measures, or other financial or economic interests or property
26 of any kind.”⁶

27 ⁵ *CFTC Futures Glossary*, <https://www.cftc.gov/LearnAndProtect/AdvisoriesAndArticles/CFTCGlossary/index.htm#B>.

28 ⁶ *See also* §§ 1a(47)(A)(iv) (including transactions “commonly known to the trade

1 In its brief responding to Kalshi’s motion for a preliminary injunction,
2 Arizona attempts to skirt the preemption issue by asserting that event contracts
3 traded on DCMs do not fall under the CEA’s definition of swaps. ECF No. 18 at
4 12-16. Arizona reaches this conclusion by drawing thin, extra-textual distinctions
5 between what is an “event” and what is an “outcome” and inserting limits on what
6 qualifies as a “potential, financial, economic, or commercial consequence” that
7 appear nowhere in the CEA. *Id.* at 13-14.

8 That torturing of the CEA’s text is unnecessary. Nowhere in the “swap”
9 definition did Congress draw a distinction between an “event” and “outcome.” Nor
10 does such parsing make sense. Arizona explains that an “event would be ‘the
11 sporting event itself, not who wins it.’” ECF No. 18 at 13-14 (quoting *North Am.*
12 *Derivatives Exch., Inc. v. Nevada*, No. 2:25-cv-00978, 2025 WL 2916151, at *8
13 (D. Nev. Oct. 14, 2025)). But it is difficult to see how that distinction doesn’t also
14 apply to contracts that Arizona concedes are swaps. For example, Arizona appears
15 to agree that “[a]n event contract on the Fed raising interest rates” would be a swap.
16 *Id.* at 14. Using Arizona’s framework, however, the Federal Reserve Board’s rate
17 decision is an “outcome” of the “event” that is a meeting of the Federal Reserve
18 Board’s Open Market Committee. Under the plain text of the CEA, whether the
19 Fed sets rates at a certain level, whether a storm hits at a particular time, or whether
20 a certain team wins a sporting event are all “events” upon which a DCM could list
21 a swap.

22 Event contracts based on sports or elections also implicate “potential
23 financial, economic, or commercial consequence[s]” under the CEA. 7 U.S.C.
24 § 1a(47)(A)(ii). Arizona’s more limited, atextual view ignores that the definition
25 applies to events even “associated with a potential” consequence. *Id.* As the Third
26 Circuit held, a sports event affects “numerous . . . stakeholders, including sponsors,
27 _____
28 as swaps”) and (vi) (“any combination or permutation of, or option on, any agreement,
contract, or transaction described in any of clauses (i) through (v)”).

1 advertisers, television networks, franchises, and local and national communities.”
2 *KalshiEX*, 2026 WL 924004, at *3. It is not true that an economic consequence
3 must be “inherently joined with a financial consequence.” ECF No. 18 at 14.
4 Otherwise, the CEA would prohibit DCMs from listing event contracts that they
5 have offered for decades, like contracts on the weather.

6 Further, it is not true that there “is no genuine basis to hedge against” events
7 that are traded on the DCMs that Arizona seeks to shut down. Many of the
8 stakeholders to a sport event, see *KalshiEX*, 2026 WL 924004, at *3, may wish to
9 hedge against a team’s or participant’s performance. And the same is true for
10 political event contracts: any number of stakeholders may want to hedge against
11 an expected tax change,⁷ or parents who participate in Arizona’s school choice
12 program may wish to hedge against the reelection of Governor Hobbs, who has
13 promised to roll back the program.⁸

14 The only difference between a sports or political event contract and the types
15 of event contracts on the weather or corn production that have traded on DCMs for
16 decades is the underlying event, but Arizona lacks any textual basis to justify
17 carving out some events and not others, and Arizona offers no limiting principle to
18 avoid undermining decades of well-regulated markets. Carving out sports and
19 political event contracts from the CEA’s definition of “swap,” would destabilize
20 those previously uncontroversial markets, potentially subjecting them to a
21 patchwork of state gambling regulations. By contrast, adhering to the plain text of
22 the CEA does nothing to limit Arizona’s existing authority to regulate gambling—
23 indeed, Arizona’s gambling industry and related state revenue continues to grow
24

25 ⁷ William McBride, et al., “Kamala Harris Tax Plan Ideas: Details and Analysis,”
26 Tax Foundation (Oct. 16, 2024), <https://taxfoundation.org/research/all/federal/kamala-harris-tax-plan-2024/> (describing various proposals and their likely effects).

27 ⁸ Transcript: Governor Hobbs 2026 State of the State Address, Office of Gov.
28 Katie Hobbs (Jan. 12, 2026), <https://azgovernor.gov/office-arizona-governor/news/2026/01/transcript-governor-hobbs-2026-state-state-address>.

1 rapidly.⁹ The plain text reading of the CEA is also the least disruptive to both
2 federal futures regulation and the typical application of Arizona’s gambling laws.

3 **2. The CEA expressly preempts state law**

4 “Express preemption occurs when a federal statute explicitly states that it
5 overrides state or local law.” *Hoagland v. Town of Clear Lake*, 415 F.3d 693, 696
6 (7th Cir. 2005). Congress explicitly preempted state regulation of commodity
7 derivatives transactions, vesting the Commission with “exclusive jurisdiction,”
8 except as otherwise expressly provided by Congress, over all “accounts,
9 agreements . . . , and transactions involving swaps or contracts of sale of a
10 commodity for future delivery.” 7 U.S.C. § 2(a)(1)(A).

11 This “exclusive jurisdiction” provision was first enacted by the Commodity
12 Futures Trading Commission Act of 1974, Pub. L. 93-463, 88 Stat. 1389 (1974)
13 (“CFTC Act of 1974”). Preemption was the primary goal of the “exclusive
14 jurisdiction” provision. Indeed, potentially limiting language was stricken from
15 the statute “to assure that Federal preemption is complete.” 120 Cong. Rec. S
16 30458, 30464 (daily ed. Sept. 9, 1974) (Statement of Sen. Curtis). Preemption of
17 state law was necessary because, for decades, states had attempted to apply state
18 gambling laws to derivatives trading. By the mid-nineteenth century, commodity
19 exchanges in major trading hubs like New York and Chicago had organized trading
20 to facilitate price discovery (information exchange), risk management (hedging),
21 and speculation. But many states prohibited futures trading as a form of gambling.
22 *See, e.g., Irwin v. Williar*, 110 U.S. 499, 508-09 (1884) (describing futures
23

24 ⁹ Compare Ariz. Dep’t. of Gaming, Fiscal Year 2025 Annual Report (reporting
25 \$8,536,032,607 in gross event wager receipts and \$724,392,332 in aggregate gross
26 licensing revenue) with Ariz. Dep’t. of Gaming, Fiscal Year 2024 Annual Report
27 (reporting \$7,069,600,694 in gross event wager receipts and \$619,618,574 in aggregate
28 gross licensing revenue) and Ariz. Dep’t. of Gaming, Fiscal Year 2023 Annual Report
(reporting \$6,148,868,887 in gross event wager receipts and \$516,158,558 in aggregate
gross licensing revenue), [https://gaming.az.gov/resources/reports#tribal-gaming-report-
archive](https://gaming.az.gov/resources/reports#tribal-gaming-report-archive).

1 contracts as “nothing more than a wager”); *see also Cothran v. Ellis*, 16 N.E. 646,
2 647 (Ill. 1888) (describing futures as “gambling in grain”). Congress recognized
3 the need for uniform, nationwide regulation of futures and options markets because
4 concurrent regulation by the states or other federal regulators such as the Securities
5 and Exchange Commission could lead to “total chaos.” *See Commodity Futures*
6 *Trading Act of 1974: Hearings Before the S. Comm. on Agric. & Forestry on S.*
7 *2485, S. 2578, S. 2837, H.R. 13113, 93d Cong., 2d Sess. 685 (1974) (statement of*
8 *Sen. Clark).*

9 As financial derivatives markets have developed and grown, Congress has
10 steadily expanded the CFTC’s jurisdiction to include commodity swaps and event
11 contracts. In 2010, Congress amended the CEA to add “transactions
12 involving swaps” to the CFTC’s § 2(a)(1) exclusive jurisdiction. *See Dodd-Frank*
13 *Wall Street Reform and Consumer Protection Act, Pub. L. No. 111-203, 124 Stat.*
14 *1376 (2010); 7 U.S.C. § 2(a)(1)(A).* In the same legislation, Congress emphasized
15 the CFTC’s exclusive jurisdiction over event contracts by adding the “Special
16 Rule,” CEA § 5c(c)(5)(C) to the Act. *See 7 U.S.C. § 7a-2(c)(5)(C).* In
17 § 5c(c)(5)(C), Congress granted the CFTC specific oversight and prohibitory
18 authority over event contracts by providing that the CFTC “may determine” event
19 contracts involving certain categories “are contrary to the public interest” and may
20 not be listed on CFTC-regulated markets. 7 U.S.C. § 7a-2(c)(5)(C)(i)-(ii). By
21 creating a specific public interest review process, Congress clearly signaled that
22 these contracts are within the CFTC’s exclusive regulatory purview, not the
23 States’.

24 **3. The CEA occupies the field of derivatives trading regulation,** 25 **preempting application of state law**

26 Even without the express language of the CEA preempting state regulation,
27 state laws prohibiting or purporting to regulate transactions listed by or executed
28 on CFTC-regulated DCMs are preempted because Congress “occupied the field”

1 of regulation of event contracts traded on CFTC-regulated DCMs. *See KalshiEX*,
2 2026 WL 924004, at *4; *Boomer*, 309 F.3d at 417. In general, state law must give
3 way if “Congress, acting within its proper authority, has determined [that a
4 category of conduct] must be regulated by its exclusive governance” or where “the
5 challenged state law ‘stands as an obstacle to the accomplishment and execution
6 of the full purposes and objectives of Congress.’” *Arizona*, 567 U.S. at 399
7 (quoting *Hines v. Davidowitz*, 312 U.S. 52, 67 (1941)).

8 When Congress amended CEA § 2(a)(1) in 1974 to give the CFTC
9 “exclusive jurisdiction” over futures transactions, it did so with the intent that the
10 CEA would “preempt the field insofar as futures regulation is concerned” such that
11 “if any substantive State law regulating futures trading was contrary to or
12 inconsistent with Federal law, the Federal law would govern.” H.R. Rep. No. 93-
13 1383 (1974) (Conf. Rep.), *reprinted in* 1974 U.S.C.C.A.N. 5894, 5897.

14 Over the years, amendments to the CEA repeatedly reinforced the CFTC’s
15 exclusive jurisdiction over the field of futures derivatives trading. In 1978,
16 proposals to carve off pieces of the CFTC’s “exclusive” jurisdiction were rejected,
17 because “[t]he nature of the underlying commodity is not an adequate basis to
18 divide regulatory authority.” S. Rep. No. 95-850, at 111-12 (1978), *reprinted in*
19 1978 U.S.C.C.A.N. 2087, 2110-11. That “a futures contract market does not fit
20 into the traditional mold where there are both hedging and price-discovery
21 functions should not be the determining factor in whether the contract is to be
22 regulated by the CFTC.” *Id.* Congress also underscored the importance of the
23 CFTC’s exclusive jurisdiction over commodity derivatives, citing concerns over
24 “costly duplication and possible conflict of regulation or over-regulation.” *Id.*
25 When amending the CEA in 1982, Congress “continue[d] to support the idea of a
26 single unified program of regulation and exclusive CFTC jurisdiction over
27 exchange-traded futures,” “recognizing the somewhat esoteric nature of the
28 commodity futures markets and the desire to have knowledgeable and uniform

1 enforcement of the Act.” H.R. Rep. No. 97-565, at 44-45 & 102-103, *reprinted in*
2 1982 U.S.C.C.A.N. at 3893-94, 3951-52.

3 A field is preempted from state regulation “if the scope of the statute
4 indicates that Congress intended federal law to occupy the legislative field.” *Altria*
5 *Grp., Inc. v. Good*, 555 U.S. 70, 76 (2008). The scope of the CEA and the long
6 history of Congress’s amendments to ensure federal law captured the evolving
7 futures and derivatives markets makes clear that Congress intended to occupy the
8 field. With 7 U.S.C. § 2(a)(1)(A), Congress intended the CEA to occupy the field
9 of “accounts, agreements . . . and transactions involving swaps or contracts of sale
10 of a commodity for future delivery . . . traded or executed on a contract market . .
11 . or any other board of trade, exchange, or market.” When an instrument is trading
12 on a CFTC-regulated market as a “swap” or “future,” state gambling laws do not
13 apply.

14 **4. Arizona’s application of its state laws conflicts with the CEA**

15 Offering event contracts on a DCM cannot, in and of itself, be an activity
16 that is unlawful under any state law because such an application of state law would
17 conflict with the CEA. “Congress’s intent was to provide the CFTC with exclusive
18 jurisdiction to regulate commodities” and “[s]uch exclusive jurisdiction precludes
19 states from exercising supplementary regulatory authority over commodity
20 transactions.” *Stuber v. Hill*, 170 F. Supp. 2d 1146, 1151 (D. Kan. 2001); *see also*
21 *KalshiEX*, 2026 WL 924004, at *5 (“[C]onflict preemption also prohibits New
22 Jersey from regulating sports-related event contracts on CFTC-licensed DCMs.”).

23 A State applying local gambling laws to federally regulated DCMs “stands
24 as an obstacle to the accomplishment and execution of the full purposes and
25 objectives of Congress.” *Arizona*, 567 U.S. at 399 (internal citation omitted). The
26 CEA presents a “comprehensive regulatory structure to oversee the volatile and
27 esoteric futures trading complex.” *Merrill Lynch, Pierce, Ferner & Smith, Inc. v.*
28 *Curran*, 456 U.S. 353, 356 (1982). State gambling laws often require local

1 licensing, fees, enforcement, and specific hardware. Applying state-by-state local
2 requirements to national commodity exchanges would create the very “patchwork”
3 that Congress set out to prevent in these complex markets. Indeed, the history of
4 the CEA demonstrates repeated efforts by Congress to protect nationwide markets
5 under uniform federal regulation as those markets evolve and as states attempt to
6 limit them.

7 What’s more, complying with both state and federal law regulating event
8 contracts traded on CFTC-regulated DCMs would be impossible because a DCM
9 is required by federal law to provide “impartial access” to all eligible participants
10 nationwide. 17 C.F.R. § 38.151(b). If a state bans the contract, the DCM cannot
11 fulfill its federal mandate to provide impartial national access. Other state-imposed
12 restrictions on access to markets would similarly make it impossible for the
13 regulated DCMs to comply with federal regulations. The CEA reflects Congress’s
14 understanding that commodity derivatives markets require nationally uniform rules
15 governing the listing, trading, clearing, settlement, and surveillance of financial
16 instruments traded in these markets to prevent the type of fragmented oversight at
17 risk in this case. Complying with fractured state regulations would derail that goal.

18 Congress has consistently chosen centralized, federal oversight and
19 regulation of derivatives markets, recognizing the negative effects of a patchwork
20 of state regulation even in the predecessor statutes to the current CEA. *See* Future
21 Trading Act of 1921, Pub. L. No. 67-66, 42 Stat. 187 (1921); Grain Futures Act of
22 1922, Pub. L. No. 67-331, 42 Stat. 998 (1922). In passing these laws, Congress
23 recognized the importance of uniform federal regulation of futures markets, even
24 over objections that the new legislation would displace some States’ regulations.
25 *Cf.* H.R. Rep. No. 67-1095, at 5 (1922) (Conf. Rep.) (objecting that the bill was
26 “designed to . . . more or less eliminate some of the most important police powers
27 of several sovereign States”). Congress’s “clear and manifest purpose” was indeed
28 to preempt these historic police powers. *Altria Grp., Inc.*, 555 U.S. at 77 (noting

1 “the assumption that the historic police powers of the States [are] not to be
2 superseded by the Federal Act unless that was the clear and manifest purpose of
3 Congress”) (quoting *Rice v. Santa Fe Elevator Corp.*, 331 U.S. 218, 230 (1947)).
4 The plain language of the text, underscored by the consistent legislative history to
5 preempt states from applying 50 state requirements on national markets, indicates
6 this “clear and manifest purpose” to preempt state police powers.

7 **III. THE REMAINING FACTORS FAVOR GRANTING** 8 **PRELIMINARY RELIEF**

9 Absent an injunction, the United States and the CFTC will suffer irreparable
10 harm. Irreparable harm necessarily results from the enforcement of an
11 unconstitutional state law. *Goldie’s Bookstore, Inc. v. Superior Ct. of State of Cal.*,
12 739 F.2d 466, 472 (9th Cir. 1984) (“An alleged constitutional infringement will
13 often alone constitute irreparable harm.”). And the United States suffers irreparable
14 harm “when its valid laws in a domain of federal authority are undermined by
15 impermissible state regulations.” *Alabama*, 691 F.3d at 1301. The federal
16 government’s ability to enforce its policies and achieve its objectives will be
17 undermined by the state’s enforcement of statutes that interfere with federal law.
18 *See Crosby v. National Foreign Trade Council*, 530 U.S. 363, 379-80 & n. 14
19 (2000). “The ability to sue to enjoin unconstitutional actions by state and federal
20 officers is the creation of courts of equity, and reflects a long history of judicial
21 review of illegal executive action, tracing back to England.” *Armstrong v.*
22 *Exceptional Child Ctr., Inc.*, 575 U.S. 320, 327 (2015). The United States and the
23 CFTC seek to protect their distinct interests in preventing a State from nullifying
24 federal law and evading Congress’s intent and direction in the CEA.

25 Arizona seeks not only to regulate CFTC-regulated DCMs but to criminally
26 prosecute them for trading in markets in compliance with federal law. There is no
27 remedy at law for such an injury. *Morales v. Trans World Airlines, Inc.*, 504 U.S.
28 374, 381 (1992). The likelihood of irreparable harm to the interests of the United

1 States and the CFTC thus warrants preliminary relief. *See American Ins. Ass’n v.*
2 *Garamendi*, 539 U.S. 396, 413 (2003) (enjoining permanently the enforcement of
3 a state statute that is preempted by federal law because it interferes with the federal
4 government’s ability to enforce its policies); *Crosby*, 530 U.S. at 372, 379-80
5 (same).

6 The public interest and equities prongs merge when the United States is a
7 party because “[f]rustration of federal statutes and prerogatives are not in the public
8 interest,” and where a state law is preempted, the State is not “harm[ed] from . . .
9 nonenforcement of invalid legislation.” *Alabama*, 691 F.3d at 1301. As the Third
10 Circuit recently held in a nearly identical case, allowing a state to enforce a state
11 law in violation of the Supremacy Clause is neither equitable nor in the public
12 interest. *See KalshiEx, LLC*, 2026 WL 924004 at *17; *see also American Trucking*
13 *Ass’ns, Inc. v. City of L.A.*, 559 F.3d 1046, 1059-60 (9th Cir. 2009). Arizona’s
14 actions to enforce its gambling laws as applied to event contracts trading on CFTC-
15 regulated exchanges interferes with federal policy as set out by Congress. A
16 temporary restraining order and preliminary injunction would allow the federal
17 government to continue to pursue federal priorities, which is inherently in the
18 public interest, until a final judgment is reached in this case. *Id.*

19 Moreover, it is not in the public interest for Arizona to enforce preempted
20 laws. *Chamber of Com. of U.S. v. Edmondson*, 594 F.3d 742, 771 (10th Cir. 2010).
21 Preserving the status quo through a temporary restraining order and preliminary
22 injunction is less harmful than allowing state laws that are likely preempted by
23 federal law to be enforced. *See Am. Trucking*, 559 F.3d at 1059-60.

24 CONCLUSION

25 Arizona’s gambling laws are preempted as applied to event contracts traded
26 on CFTC-regulated DCMs. The United States and the CFTC respectfully ask this
27 court to enter a temporary restraining order and preliminary injunction prohibiting
28 Arizona from applying its laws against CFTC-regulated DCMs.
