

Let's get together.

The Bookshelf

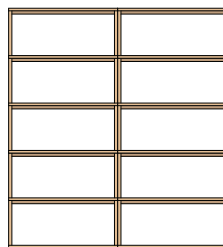

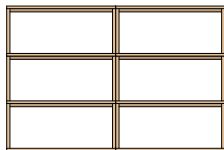

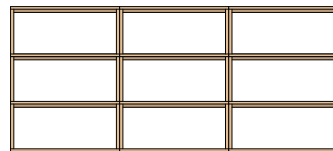

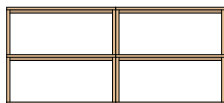

THUMA

Take care during assembly. Do not dispose of any packaging or contents of the shipping carton until assembly is completed to avoid accidentally discarding small parts or hardware. Avoid balancing pieces unsupported and do not bend over around unsecured pieces. Keep children out of the way during assembly.

To prevent injury or damage from unexpected tipping of furniture, secure the Bookshelf to the wall using anti-tipping hardware.

Designed to be modular and adaptive.

Examples of product configurations include:

Scan for additional configuration inspirations and to purchase additional units.

The Pieces

Number of pieces included is determined by the product configuration purchased.

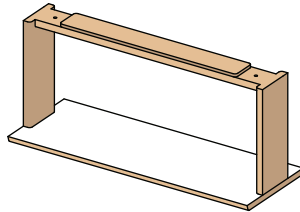

Top Tray

Short Screw

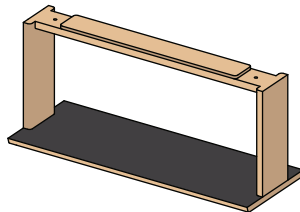

Stacking Shelf

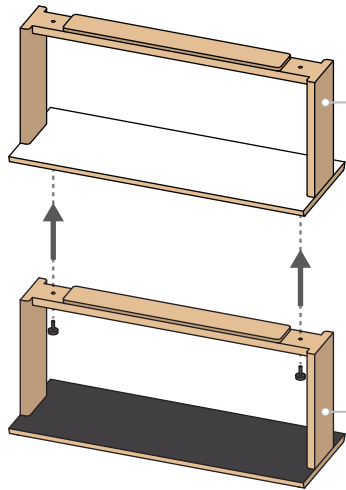

C-Clip

Base Shelf

Base Shelves & Stacking Shelves

Stacking shelves are labeled with a white sheet.

These units stack on top of other units.
Do not place on the floor.

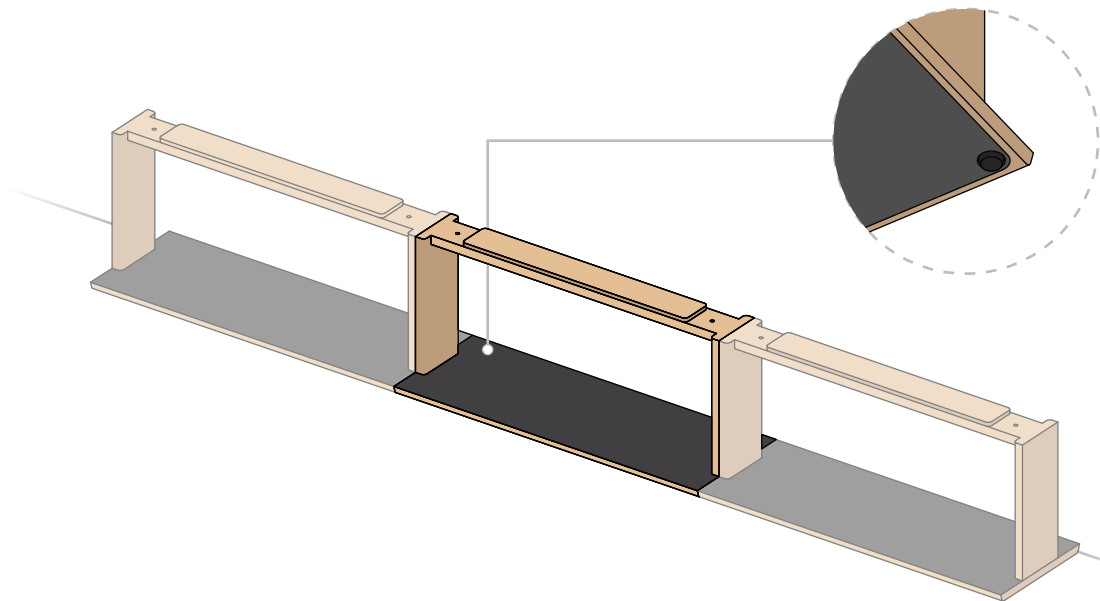

Base shelves are weighted and labeled with a black sheet.

These units are to be placed on the floor.
Do not stack on top of other units.

Step 1

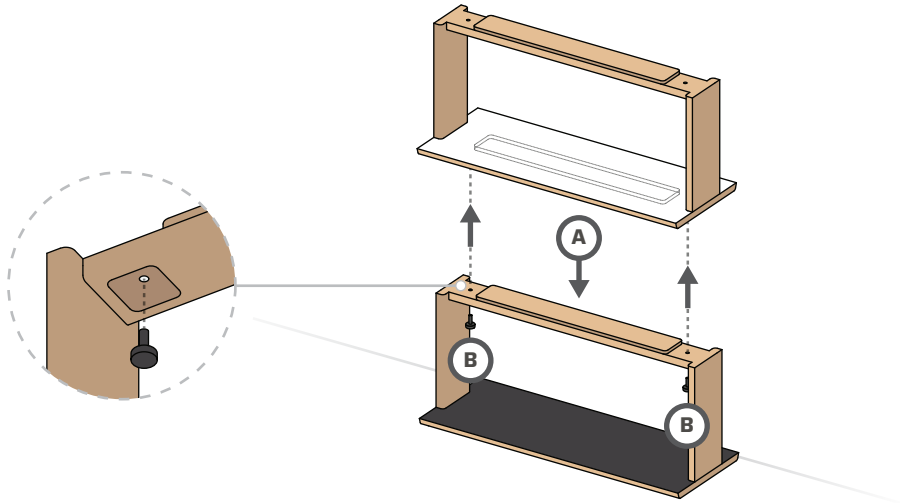

Place the **base shelf** at desired location.

Adjust the levelers as needed at the bottom of the shelves.

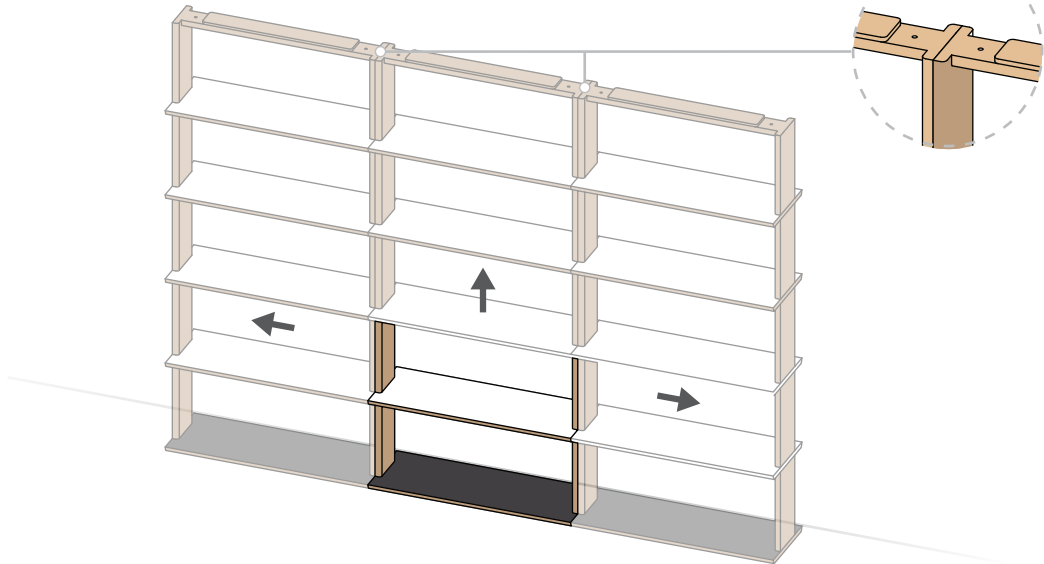

Step 2

- A. Lift a **stacking shelf** and place on top of **base shelf**.
Check on all sides to ensure stacking shelf is properly nested.
- B. Use two **short screws** under the beam of the base shelf to secure the two shelves together. Tighten by hand.

Step 3

Repeat **step 2** by stacking and securing all units until the desired configuration is reached. Ensure there are no gaps between stacks for configurations with more than one stack.

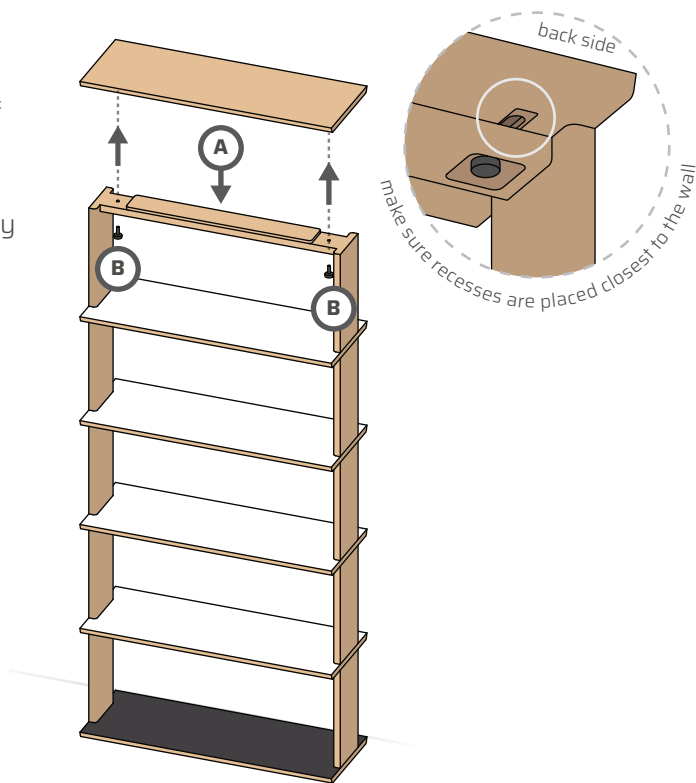

Step 4

- A. Place **top tray** onto topmost shelf with the recesses on the side closest to the wall. Check on all sides to ensure top tray is properly nested.
- B. Use two short screws under the beam of the topmost shelf to secure the top tray to the Bookshelf. Tighten by hand.

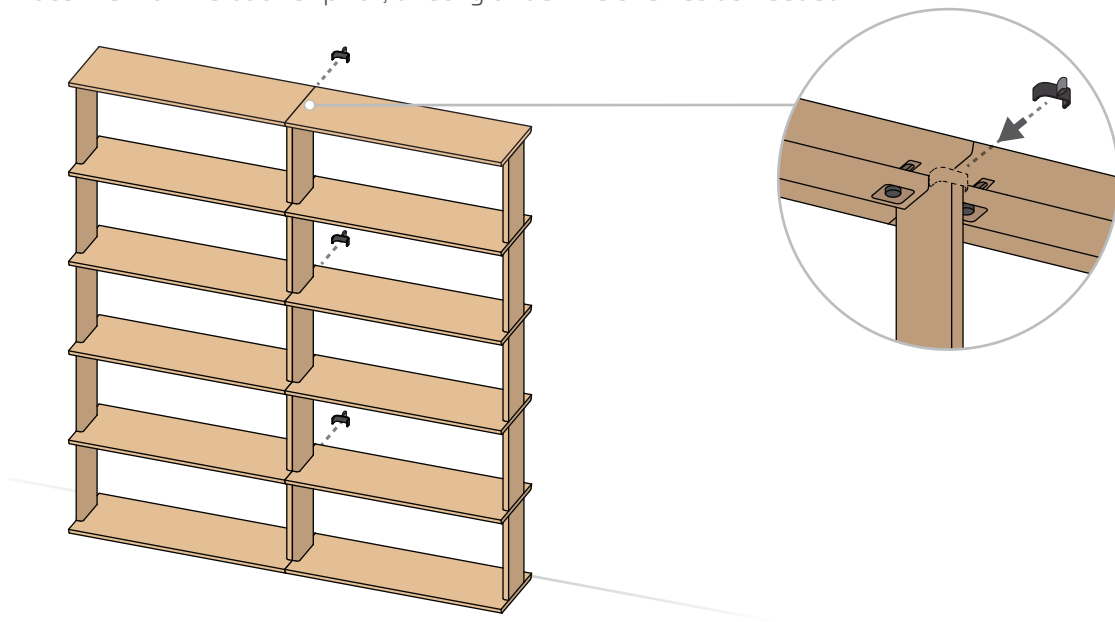

Remove all sheets.

Repeat step as needed.

Step 5

For configurations with more than one stack, use the **c-clips** for better alignment. Place them at the back of pillar, directly under the shelves as needed.

Anti-Tipping Hardware

To prevent injury or damage from unexpected tipping of furniture, secure The Bookshelf to the wall using anti-tipping hardware.

Number of pieces included is determined by the product configuration purchased.

Cable

Wall Screw

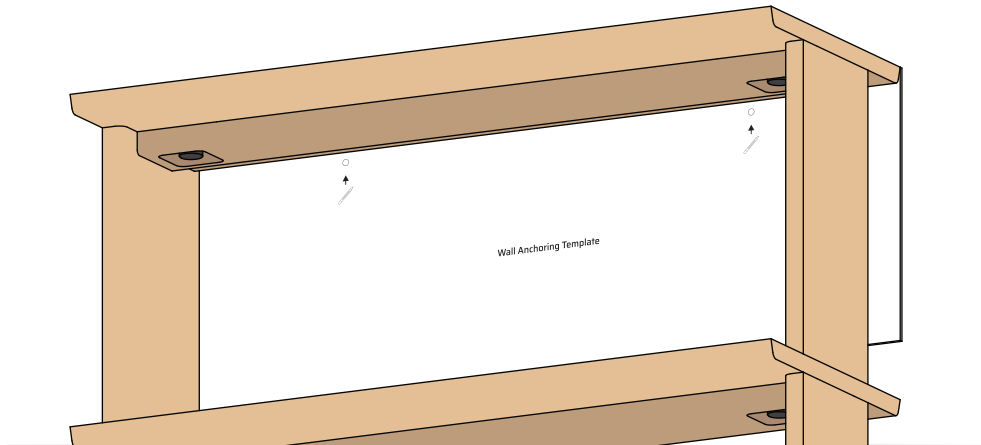

Wall Anchor

Step 6

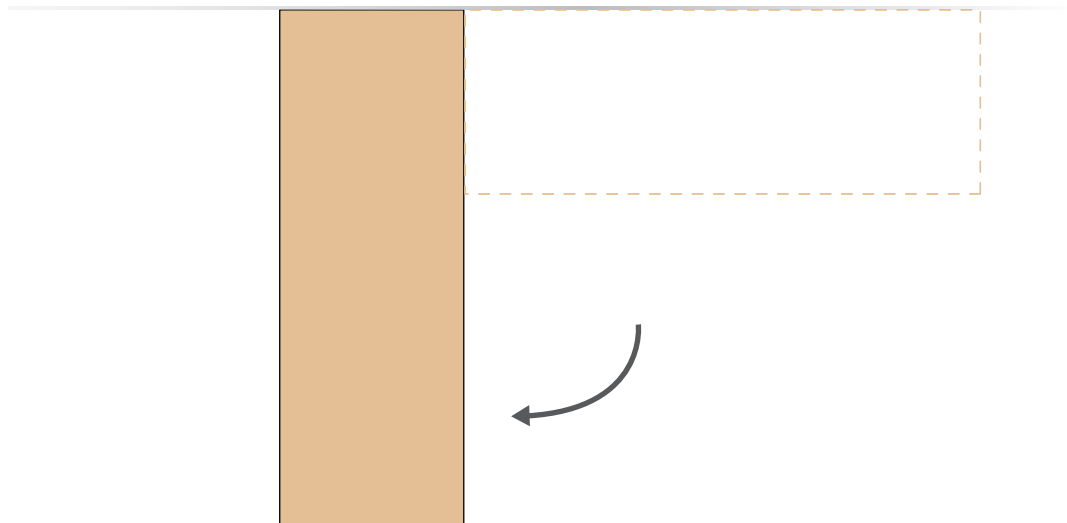

Place the wall anchoring template behind the topmost unit by aligning the top of the template with the edge of the top tray. Mark the two openings with a pencil. Then remove the template.

Repeat step as needed.

Step 7

Turn The Bookshelf away from the wall so that the marked areas are easily accessible.

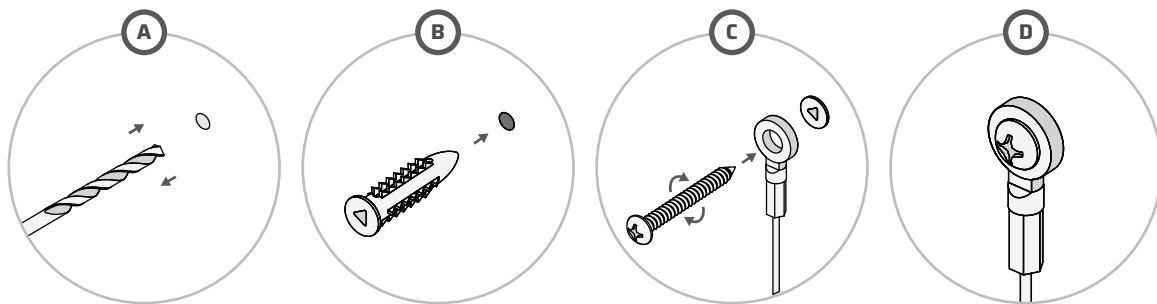

Step 8

A. Drill holes in wall with a 9/32" drill bit.

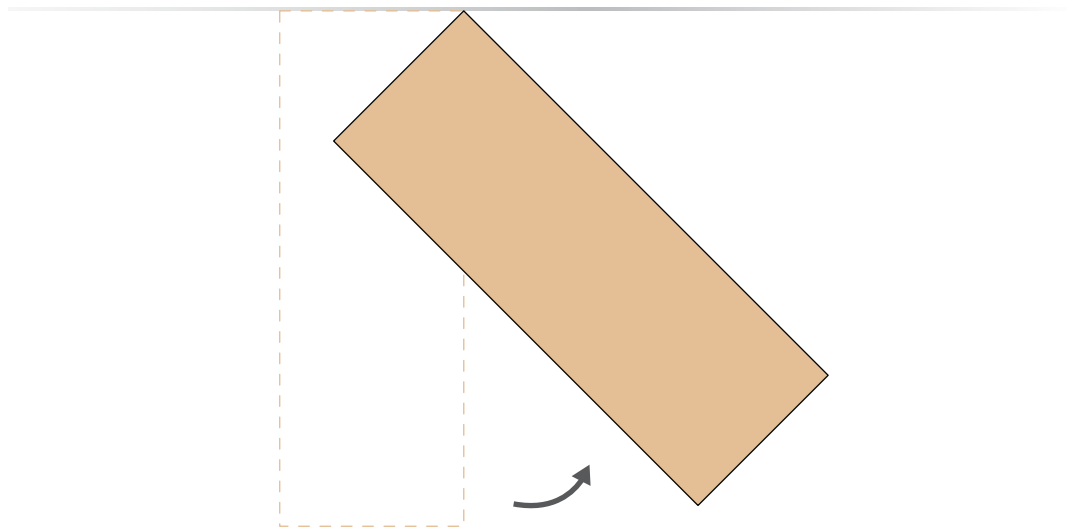

B. Hammer the wall anchors into the holes.

C-D. Secure cables to wall with wall screws.

Step 9

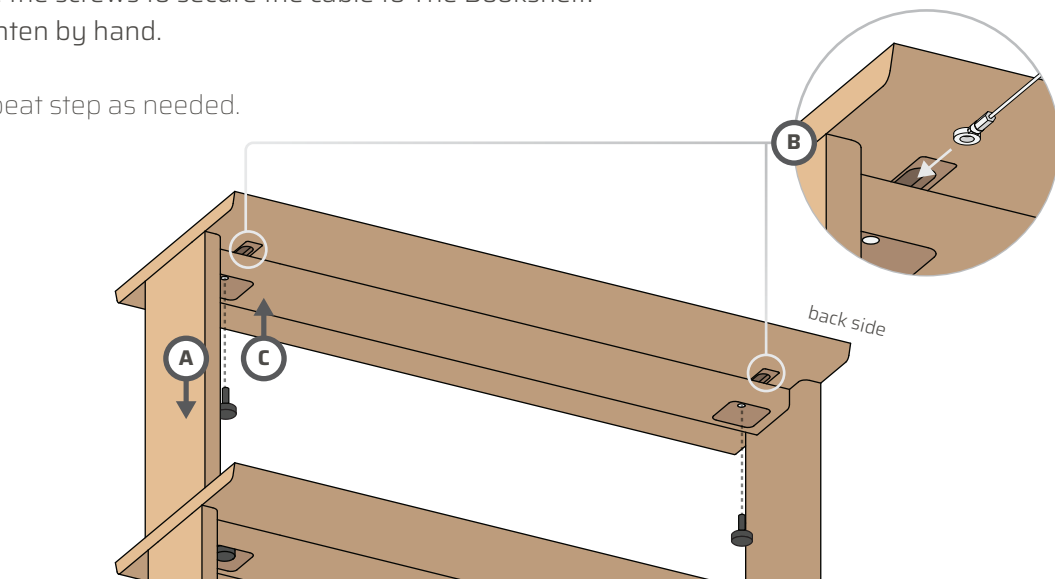

Turn The Bookshelf back to its original position.

Step 10

- A. Remove the two screws from under the top tray.
- B. Slip the cables through the openings and push them all the way in.
- C. Use the screws to secure the cable to The Bookshelf.
Tighten by hand.

Repeat step as needed.

Enjoy.

Light a candle, play some jams, pour a refreshment.
