THUMA

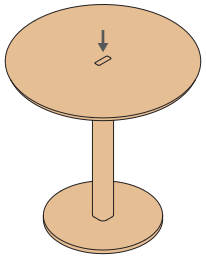

Let’s get together.

Studio Bistro Table

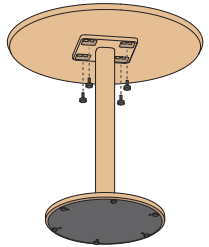

www.thuma.co

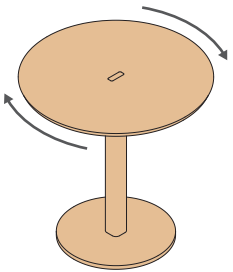

Step 1
Screw the pole to the base plate. Tighten until secure. Do not overtighten.

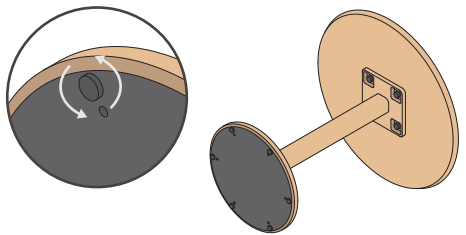

Step 2
Place the tabletop onto the pole, aligning the joinery with the cutout.

Step 3
From underneath, secure the tabletop with four short screws, tightening by hand.

Step 4
Spin the tabletop clockwise to fully tighten. Do not overtighten. Enjoy.

Optional Levelers
For uneven floors, lay the table on its side and adjust the levelers under the base plate until it sits level.

The Studio Bistro Table is not designed to be used as a seat and we're unable to guarantee the stability of the table when using it in this way. For your safety, and to remain eligible for our lifetime warranty, please do not sit, store heavy items, or place concentrated weight on top of the Studio Bistro Table.
