THUMA

Let’s get together.

Cove Mirror

www.thuma.co

GREENGUARD GOLD

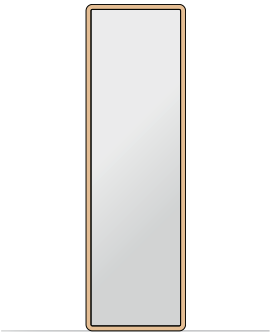

Take care during assembly. Do not dispose of any packaging or contents of the shipping carton until assembly is complete. Avoid balancing unsupported pieces and do not bend over near unsecured pieces. Keep children out of the way during assembly.

When wall mounting, stud mounting is strongly recommended. Check with a professional to ensure your wall can tolerate a fixture weighing 30 lb (13.6 kg) for the Large Cove Mirror or 17 lb (7.7 kg) for the Medium Cove Mirror. Professional installation required when mounting on a tile or stone surface.

To prevent injury or damage, if the Large Cove Mirror is leaning against a wall, secure it to the wall using the included anti-tipping hardware.

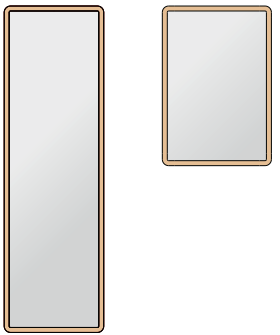

Designed to be modular and adaptive.

Examples of product placement:

Lean Against Wall

Wall anchors

Anti-Tipping Hardware

To prevent injury or damage, if the Large Cove Mirror is leaning against a wall, secure it to the wall using the included anti-tipping hardware.

Anti-tipping hardware is **only for Lean Against Wall use**.
For Wall Mounting, refer to page 9 for instructions

Number of pieces included is determined by the product configuration purchased.

Cable

Wall screw

Wall anchor

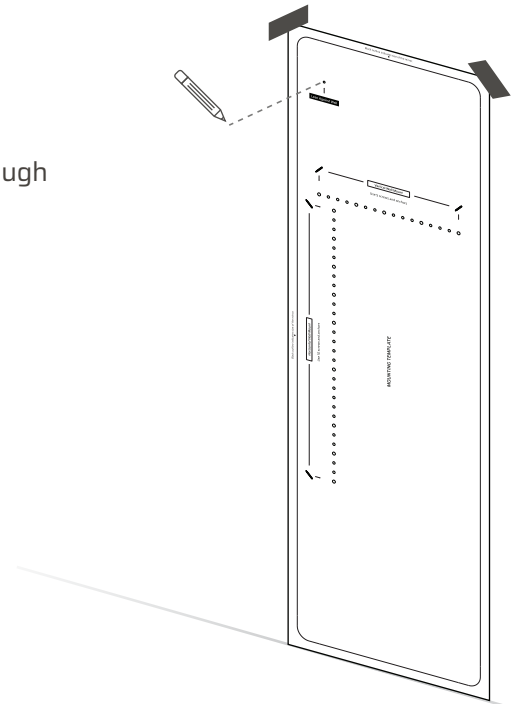

Lean Against Wall | Step 1

Place the mounting template at desired location.

Using a pencil, mark the wall through the opening of the template.

Remove the template from wall.

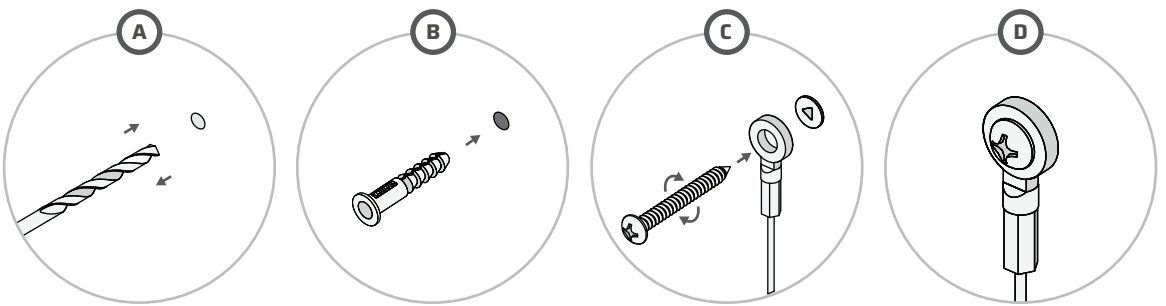

Lean Against Wall | Step 2

A. Drill a hole in the wall where marked with a 1/4” drill bit.

B. Hammer the wall anchor into the hole.

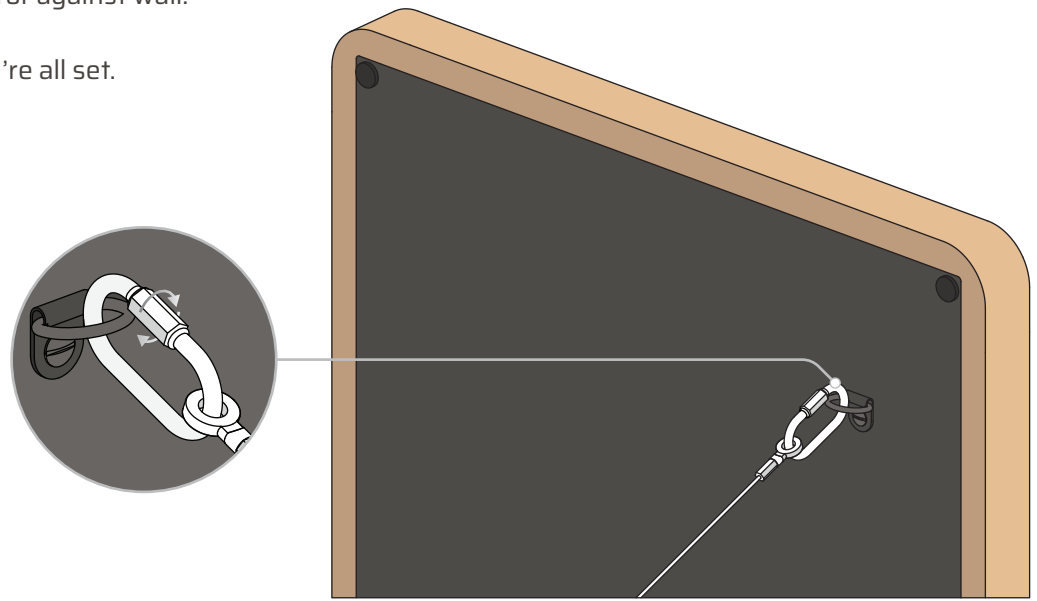

C-D. Secure cable to wall with wall screw.

Lean Against Wall | Step 3

Attach the other end of the cable through the D-ring, then lean mirror against wall.

You're all set.

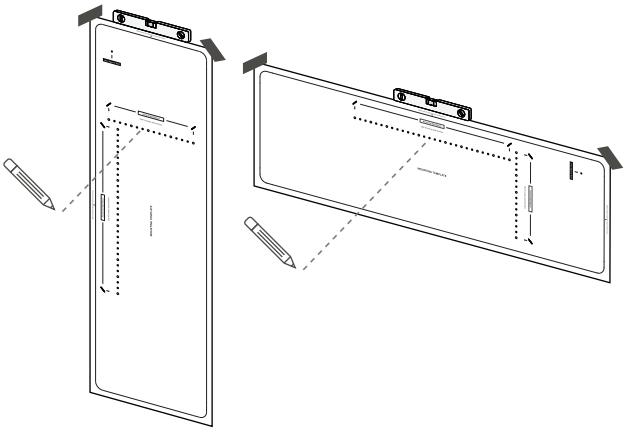

Wall Mount | Step 1

Place the mounting template at desired location. Using a level is highly recommended.

Using a pencil, mark the wall through the openings of the template.

Remove the template from wall.

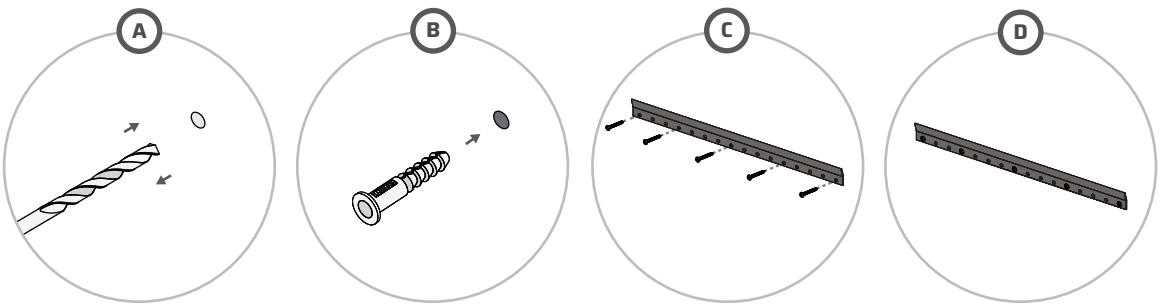

Wall Mount | Step 2

A. Drill holes in the wall where marked with a 1/4” drill bit.

B. Hammer a wall anchor into each hole.

C. Mount the French cleat into the wall using screws. Ensure the French cleat is leveled.

D. Check that the French cleat is securely screwed into the wall.

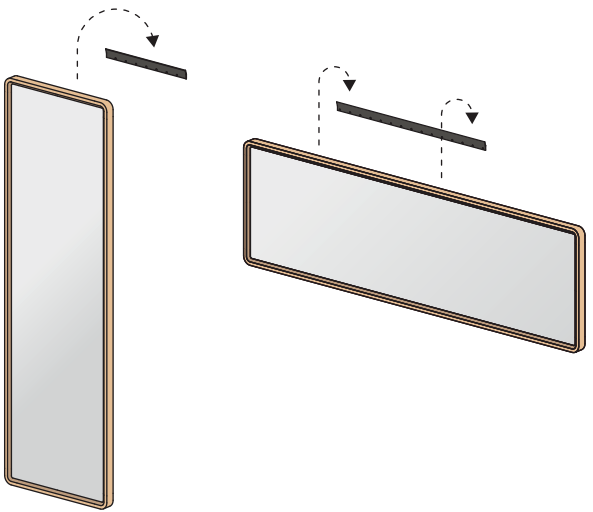

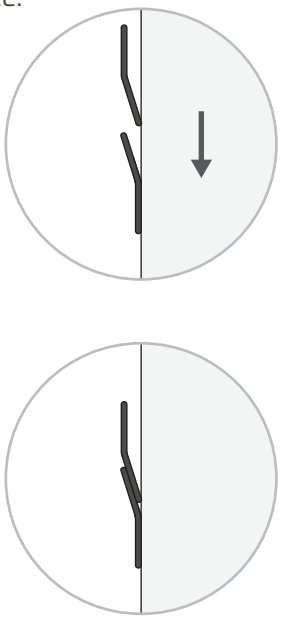

Wall Mount | Step 3

Place the mirror above the French cleat and slide down to lock it into place.

Use a level to double check that the product is straight.

You’re all set.

Enjoy.

Light a candle, play some jams, pour a refreshment.
