

Let's get together.

Bookshelf

THUMA

Take care during assembly. Do not dispose of any packaging or contents of the shipping carton until assembly is completed to avoid any accidentally discarding small parts or hardware. For safety, it is recommended that two people hang the fixture. Avoid balancing pieces unsupported and do not bend over around unsecured pieces. Keep children out of the way during assembly. Product should always be used with included anti tip hardware.

73"

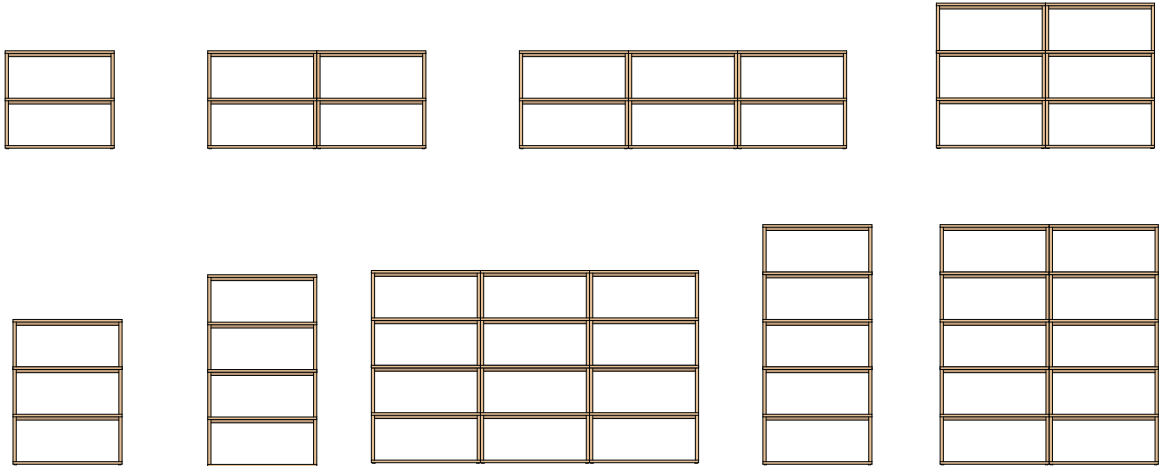

IMPORTANT

Do not stack higher than 73" (5 shelves).

Stacking higher than 73" can cause units to topple over.

Designed to be modular and adaptive.

Examples of product configurations include:

Scan for additional configuration inspirations and to purchase additional units.

The Pieces

Number of pieces included is determined by the product configuration purchased.

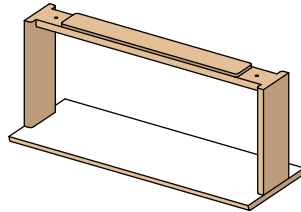

Top Tray

Short Screw

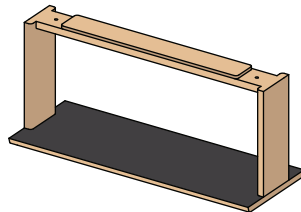

Stacking Unit

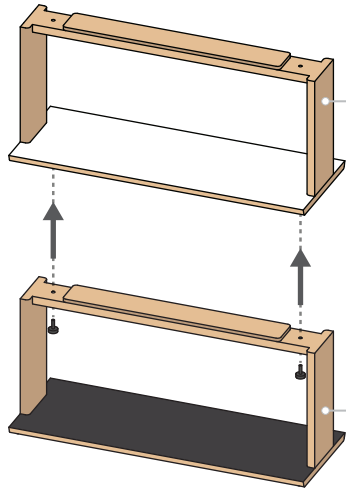

Clip

Base Unit

Base Units & Stacking Units

Stacking Units are labeled with a white sheet.

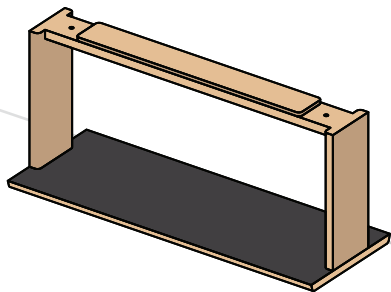

These units stack on top of other units.
Do not place on the floor.

Base Units are weighted and labeled with a black sheet.

These units are to be placed on the floor.
Do not stack on top of other units.

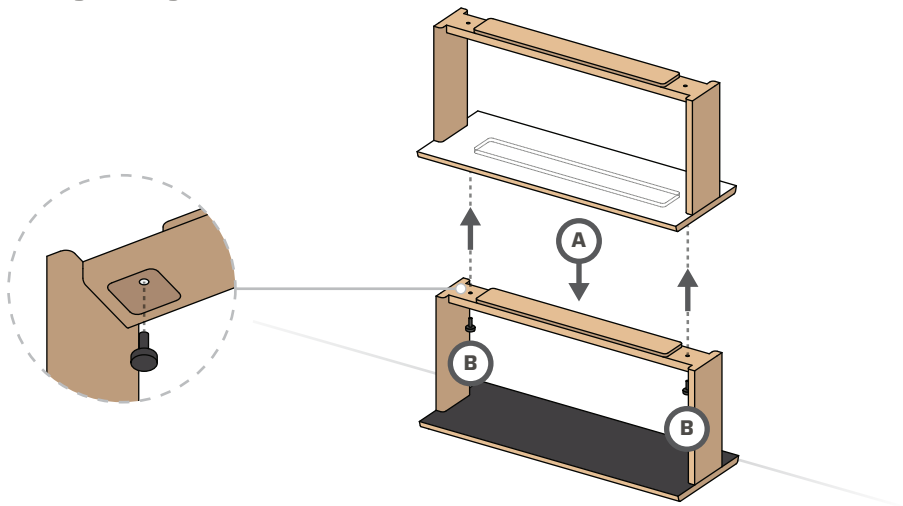

Step 1

Place the **base unit** at desired location.

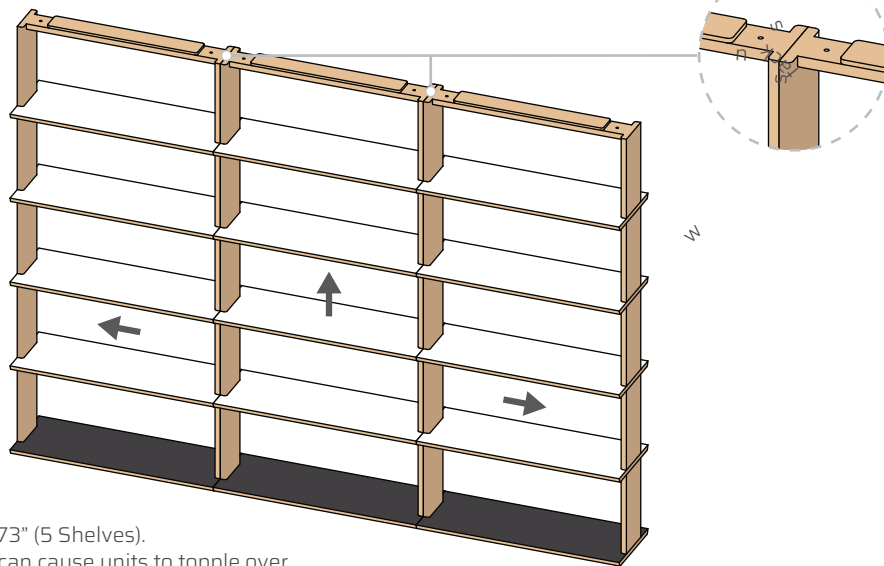

Step 2

- A. Lift **stacking unit** and place on top of base unit.
Check on all sides to ensure stacking unit is properly nested.
- B. Use two **short screws** under the beam of the base unit to secure the two units together.
Tighten by hand.

Step 3

Repeat **stacking** and **securing** units until desired configuration is reached.
Ensure there is no gap between stacks if configuration expands horizontally.

IMPORTANT

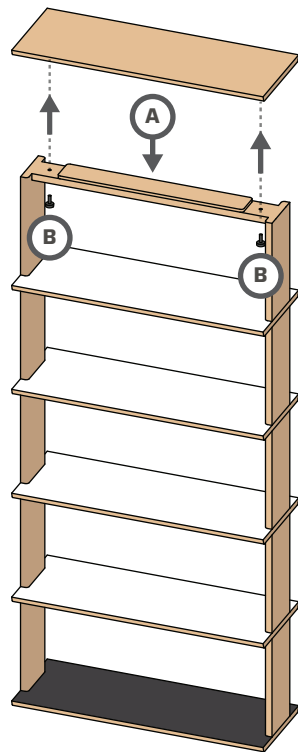

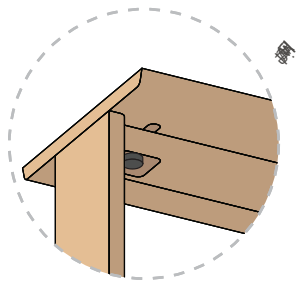

Do not stack higher than 73" (5 Shelves).
Stacking higher than 73" can cause units to topple over.

Step 4

- A. Nest the Top Tray into the topmost unit with grooves close to the wall side. Check on all sides to ensure Top Tray is properly nested.
- B. Use two Short Screws under the beam of the topmost unit to secure the Top Tray to the Bookshelf. Tighten by hand.

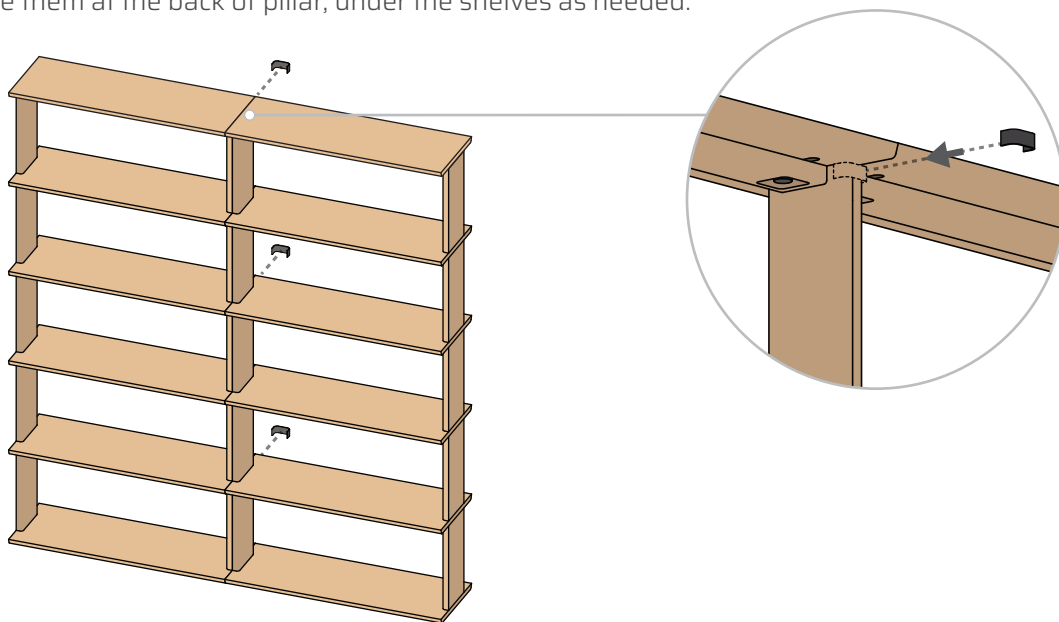

Remove all sheets.

Repeat step as needed.

Step 5

For configurations that expand horizontally, use the Clips to perfect alignment. Place them at the back of pillar, under the shelves as needed.

Anti-Tipping Hardware

To prevent risk of serious injury due to furniture tipping over, secure the Bookshelf to the wall using anti-tipping hardware included.

Number of pieces included is determined by the product configuration purchased.

Cable

Wall Screw

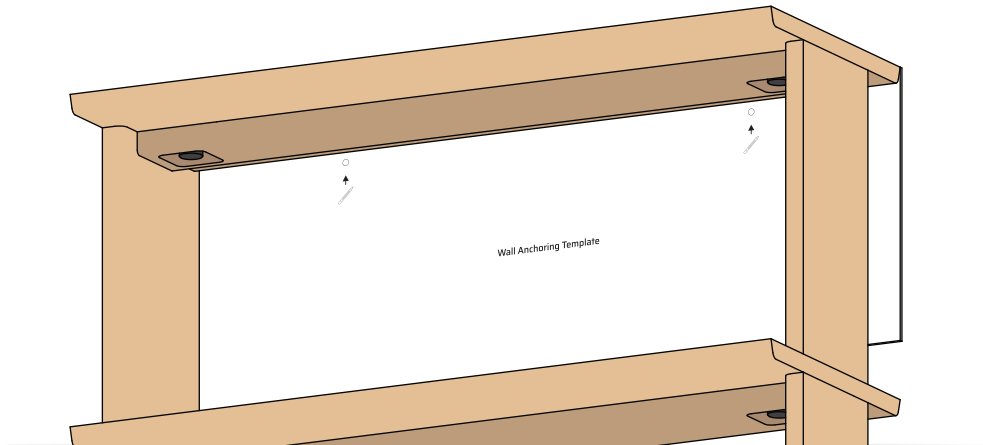

Wall Anchor

Step 6

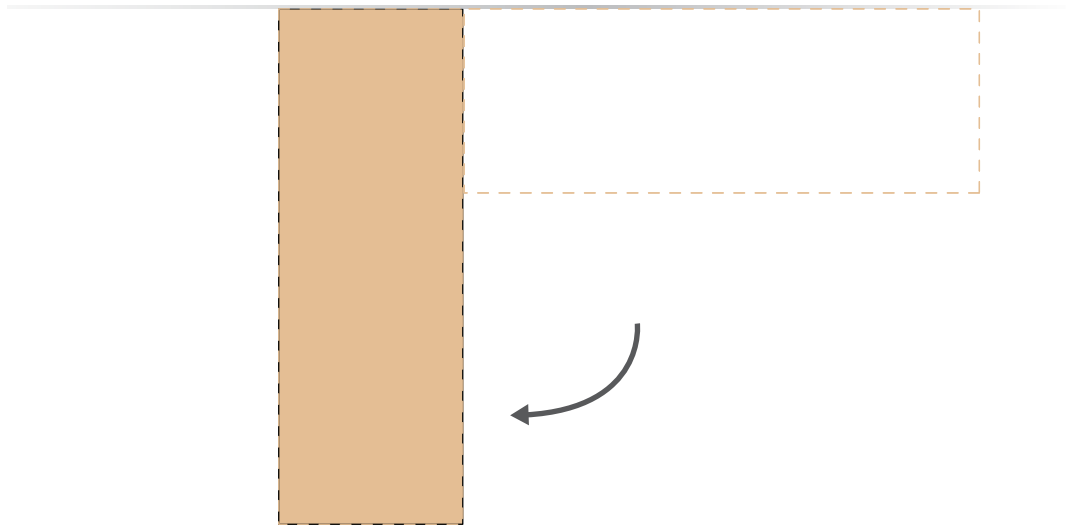

Place the Wall Anchoring Template on the topmost unit, aligning the top of the template with the edge of the Top Tray. Mark the two openings. Then remove the template.

Repeat step as needed.

Step 7

Rotate the product so it sits at a 90° angle from the wall.

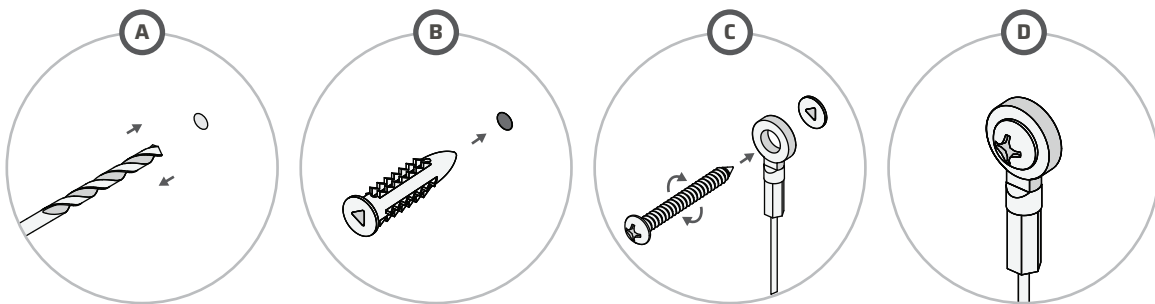

Step 8

A. Drill hole in wall with a 9/32" drill bit.

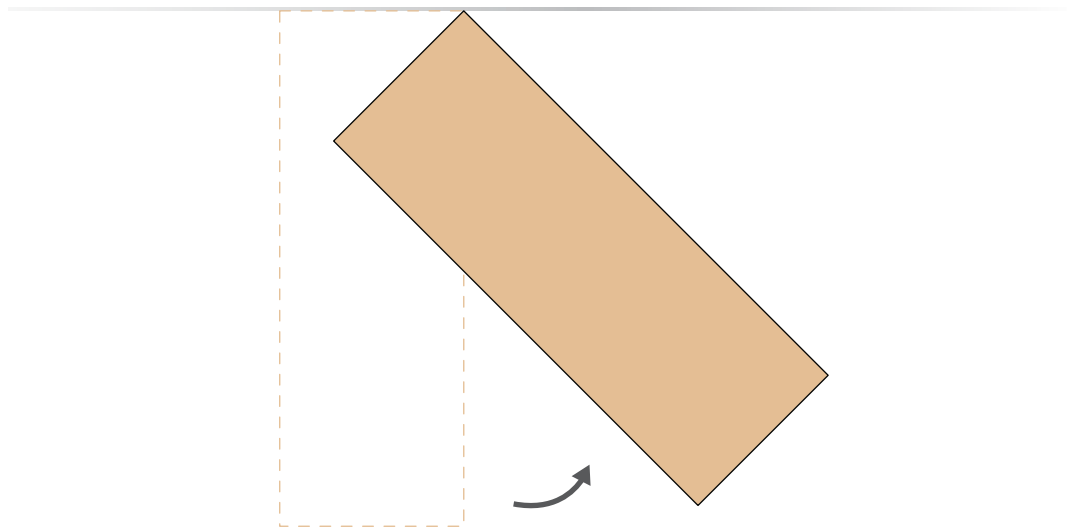

B. Hammer the wall anchor into the hole.

C-D. Secure cable to wall with wall screw.

Step 9

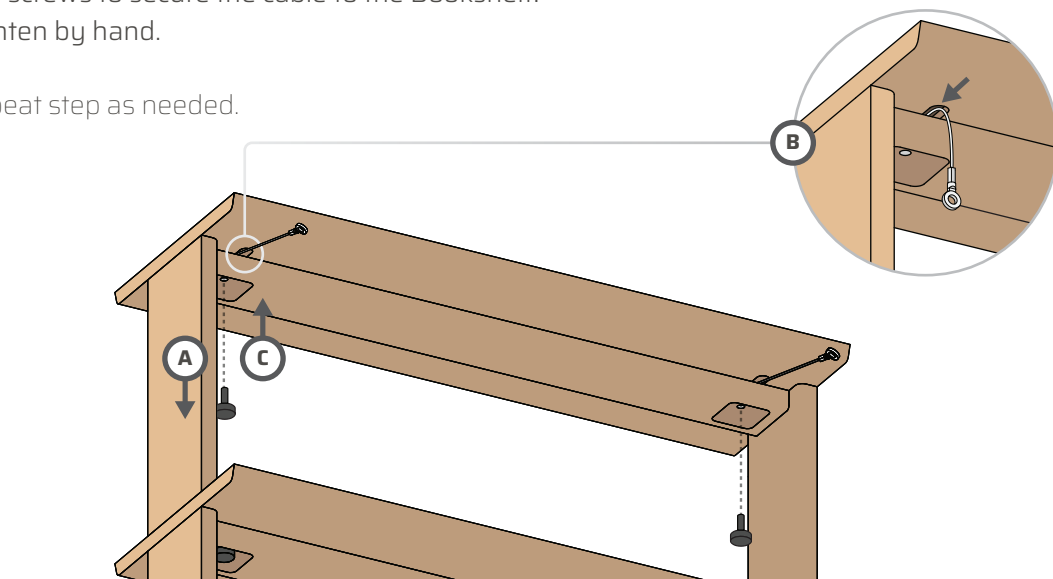

Rotate the product toward the wall.

Step 10

- A. Remove the two screws from the topmost unit.
- B. Slip the cables through the openings and push them all the way in.
- C. Use screws to secure the cable to the Bookshelf.
Tighten by hand.

Repeat step as needed.

Enjoy.

Light a candle, play some jams, pour a refreshment.
