

# Pillar Coffee Table

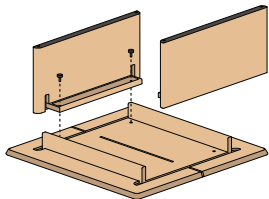

Designed with clean lines, subtle curves, and a geometric silhouette,  
the Pillar Coffee Table makes for the perfect addition to any room in the home.  
Made from 100% upcycled wood.

THUMA

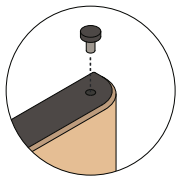

## Step 1

Use a soft surface as padding to protect pieces from damage during assembly. Flip the table top over so the bottom side faces up.

## Step 2

Insert each leg into the table top. Secure each leg with two short screws, tightening by hand. Carefully flip the table upright. Enjoy.

## Optional

For uneven floors, screw the included levelers into the bottom of each leg, and adjust until even.
