

Pillar Coffee Table

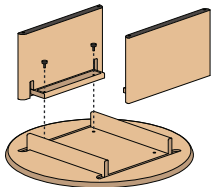

Designed with clean lines, subtle curves, and a geometric silhouette, the Pillar Coffee Table makes for the perfect addition to any room in the home. Made from 100% upcycled wood.

THUMA

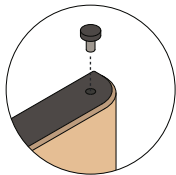

Step 1

Use a soft surface as padding to protect pieces from damage during assembly. Flip the table top over so the bottom side faces up.

Step 2

Insert each leg into the table top. Secure each leg with two short screws, tightening by hand. Carefully flip the table upright. Enjoy.

Optional

For uneven floors, screw the included levelers into the bottom of each leg, and adjust until even.
