

THUMA

Let's get together.

Essential Bed

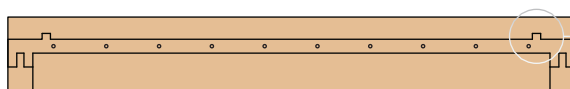

www.thuma.co

Take care during assembly. Do not dispose of any packaging or contents of the shipping carton until assembly is complete. Avoid balancing unsupported pieces and do not bend over near unsecured pieces. Keep children out of the way during assembly.

Center Rail

x1

Horseshoe

"U" joint

Center Leg

x1

Long Screw

x2

Slats

x1

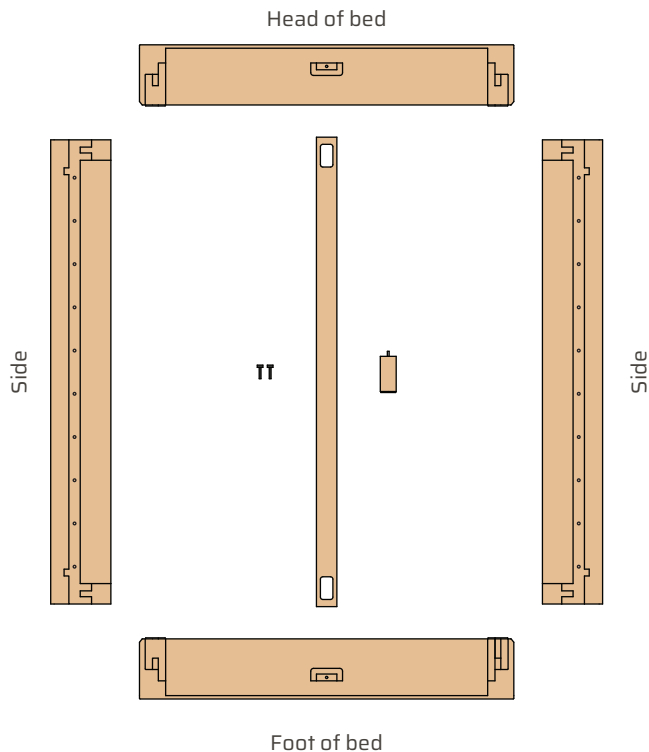

Step 1

Lay out pieces at desired location.

Arrange **long rails** (sides) with “U” joints facing in and **short rails** (head and foot) with “U” joints facing out.

Step into the center of the frame.

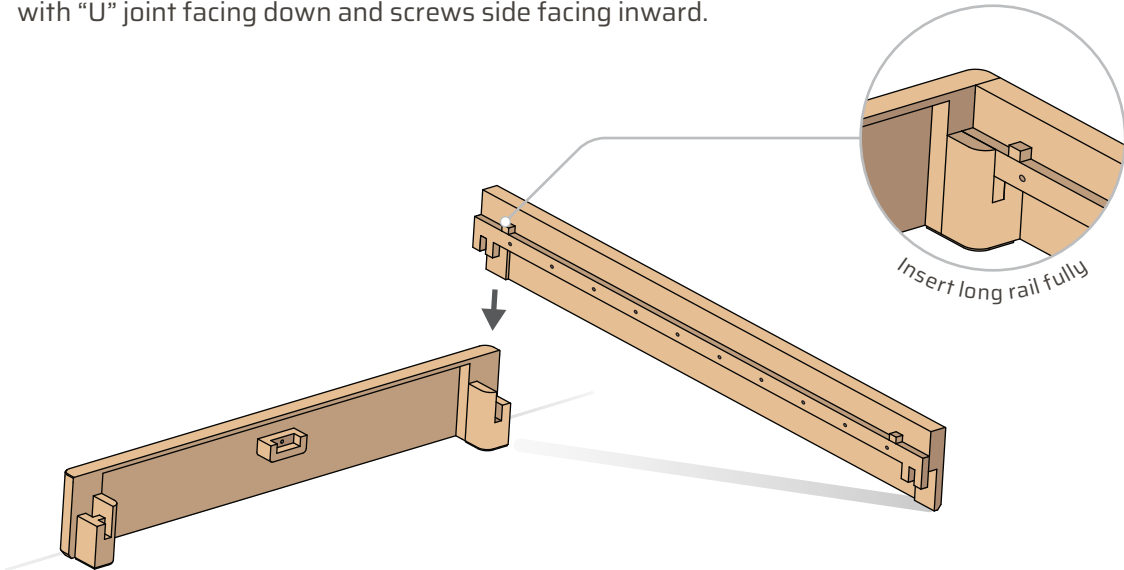

Keep slats on the sideline for now.

Step 2

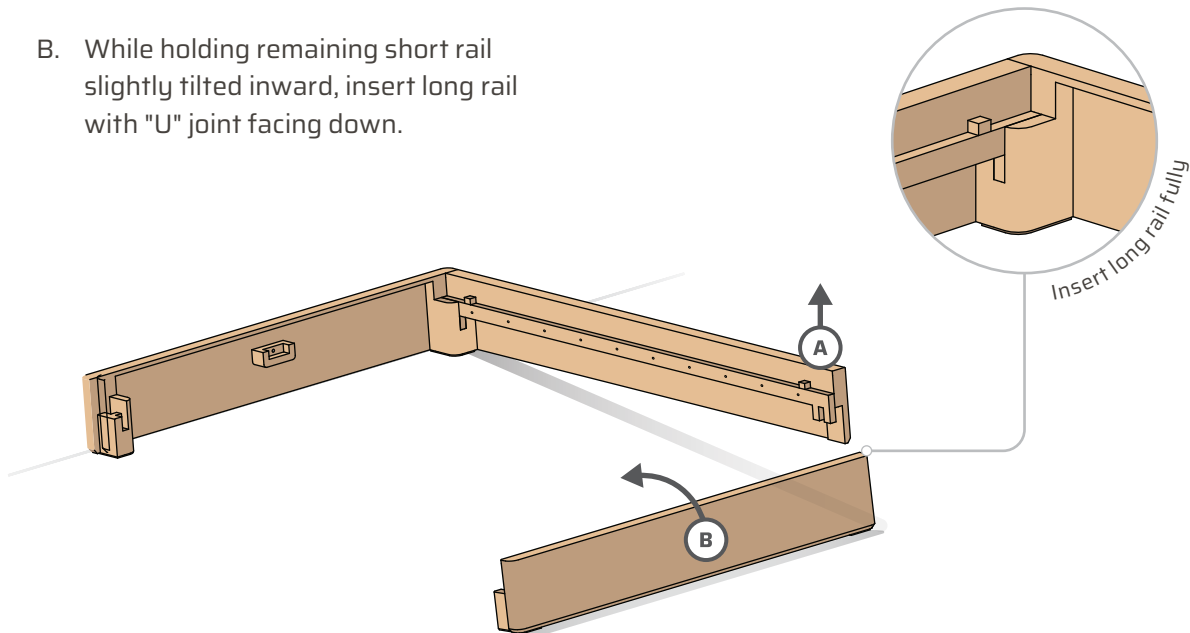

Stand up first short rail with horseshoe facing inward.

While holding short rail slightly tilted inward, insert long rail with “U” joint facing down and screws side facing inward.

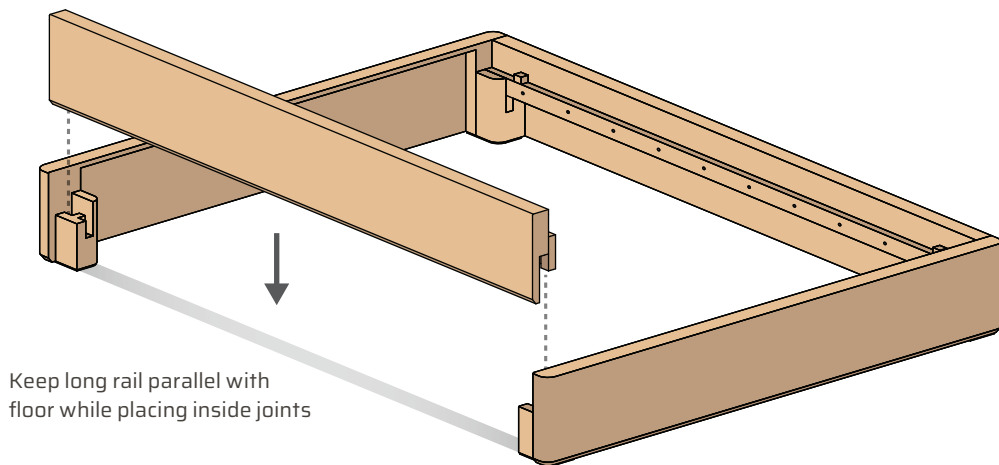

Step 3

- A. Lift the other end of long rail.
- B. While holding remaining short rail slightly tilted inward, insert long rail with "U" joint facing down.

Step 4

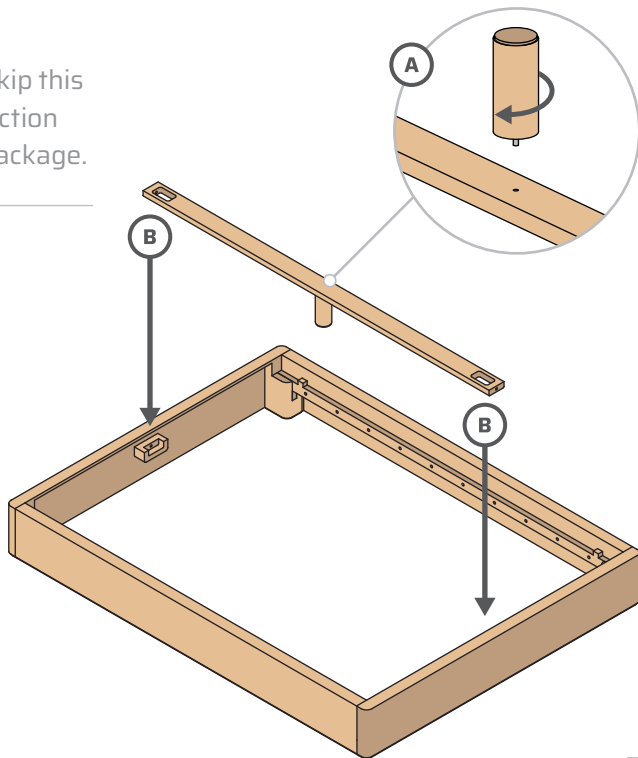

Place remaining long rail into short rails, with "U" joints facing down.
Press down fully.

Step 5

For Essential Storage Bed configurations, skip this step and continue with the assembly instruction booklet included in the Storage Bed Slats package.

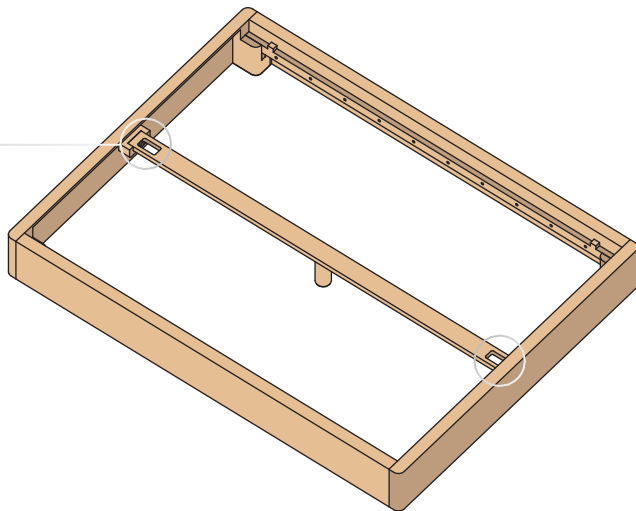

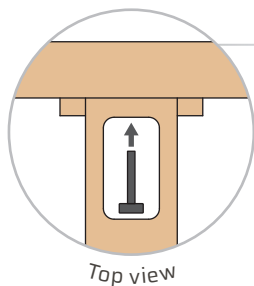

- A. Screw **center leg** into **center rail**.
The center leg doubles as a leveler.
Adjust up and down, as needed.
- B. Place one side of center rail into one of the horseshoes on the inside of the frame first. Press down fully, then repeat on the other side.

Step 6

For Essential Storage Bed configurations, skip this step and continue with the assembly instruction booklet included in the Storage Bed Slats package.

Use two **long screws** to secure center rail to short rails through openings. Tighten by hand.

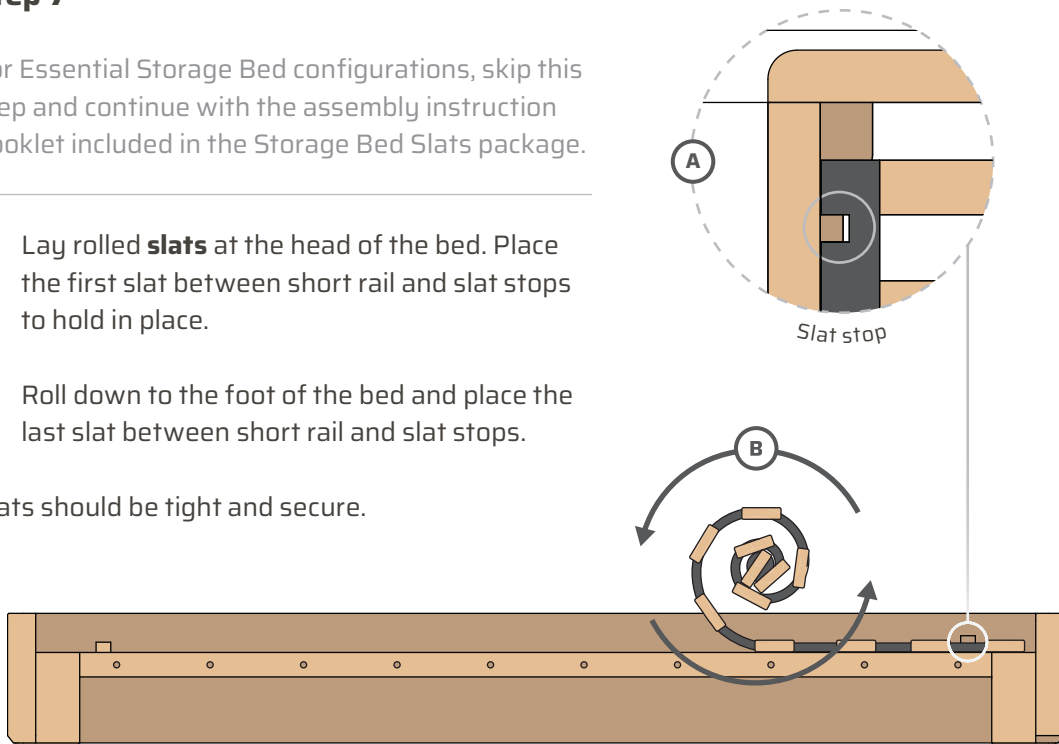

Step 7

For Essential Storage Bed configurations, skip this step and continue with the assembly instruction booklet included in the Storage Bed Slats package.

- A. Lay rolled **slats** at the head of the bed. Place the first slat between short rail and slat stops to hold in place.
- B. Roll down to the foot of the bed and place the last slat between short rail and slat stops.

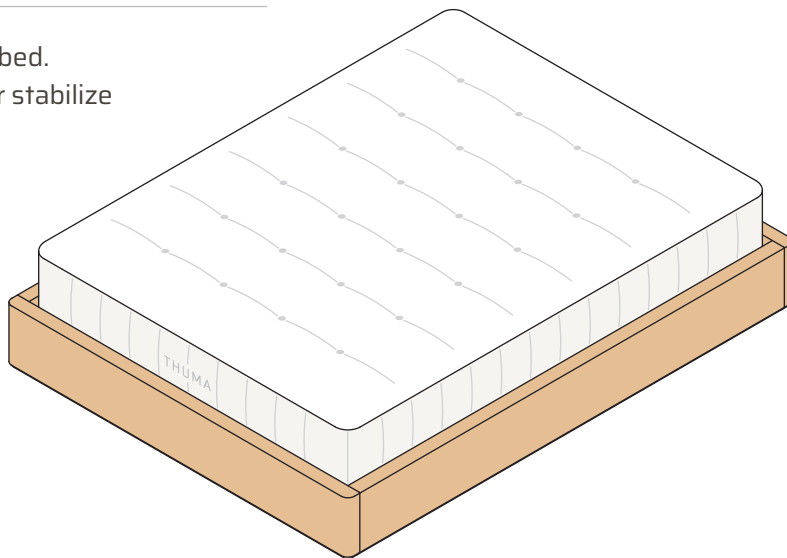

Slats should be tight and secure.

Step 8

For Essential Storage Bed configurations, skip this step and continue with the assembly instruction booklet included in the Storage Bed Slats package.

Place mattress on top of the bed.
The added weight will further stabilize the frame.

Enjoy.

Light a candle, play some jams, pour a refreshment.
