

Candles, lanterns, outdoor lights and fairy lights are moving in

Autumn is just around the corner - let it shine with DEPOT

Niedernberg, September 23, 2021 - The fizzle of a little match has a big impact. In the next moments, the light of the candle shines and radiates something special, mystical, mysterious. Candles are part of our everyday life all year round - so they are by no means commonplace. A calmly flickering flame exudes comfort and security, creates well-being and atmosphere. Particular now, as the days grow shorter. Cozy hours for two, board games with the kids when homework is finally done, or a relaxed "let's chat again" meet up with good friends: In addition to the beautiful glow of the candles, many more new feel-good mood lights are moving in for all these occasions with DEPOT this autumn, and winter is not far away either. Spot on: Let it shine!

Candles in all variations and with a long burn time

For example with this luminous duo, Thin tapered candle made of 100 percent paraffin, in a soft light brown color and with a maximum burn time of three hours. With whom do the two harmonize well? This is where Candle holder house comes in, a trendy combination of pine and iron that radiates a lot of warmth. For wider and more voluminous candles, like the new Pure pillar candle, available in five trendy colors, for which the stylish model Made is made. Small DEPOT decoration tip: Never leave candles standing alone or spread around in different places in the room - that makes them seem lost, together in a group is just more harmonious. This is also the case with other furnishings such as small vases or natural leaves, arranged on a beautiful tray. It's also ideal for well-being: the small, but so fine Tulum Rose scented candle with its long burn time of up to 30 hours.

Atmospheric fairy lights create ambiance

The story goes on: Story. D this new lantern is not only available in two different colors, but also in two different sizes. If you love gold, you might get weak at the knees with the Lantern narrow, made of the finest stainless steel and glass. Or be drawn to the Ornament lantern, which offers space for tea lights and looks great on chests of drawers. There are also various light objects such as Birch tree, Mushroom and Gold house. Providing light when autumn comes: As a leading decoration and furnishing specialist, DEPOT has many atmospheric fairy lights on offer for both outdoors and indoors. For example, the wonderful Pine cone fairy lights can be illuminated with candles and other home accessories. So let the rougher days come.

About DEPOT

The Gries Deco Company, with the two strong brands DEPOT and ipuro, is one of the largest decoration and furnishing specialists in the German-speaking world today. The company currently employs around 6,500 people and has opened 500 DEPOT branches (including partners) in Germany, Austria and Switzerland.
