How the fund works

The Fund will generally provide a diversified concentrated portfolio with exposure to a group of (no more than 15) carefully selected listed international investments. The Fund may have exposure to developed and emerging markets. The Fund will generally be unhedged but the currency hedge ratio can be varied over time.

When you invest your money in the Fund, your money will be pooled together with other investors' money. We use this pool to buy investments and manage them on behalf of all investors in the Fund. This means that by investing in the Fund you have access to certain investments that you may not otherwise be able to access on your own, as well as the knowledge of the skilled underlying investment managers through which the Fund may invest. ClearView Financial Management Limited (CFML) retains day-to-day control over the operation of the fund.
