

COVID-19 update

Keeping you prepared

Blue Shield of California is committed to supporting your employees through the COVID-19 pandemic. We understand that as more information on the COVID-19 vaccine becomes available, members may face some apprehension. To alleviate concerns, we wanted to share resources for you and your employees. You can find details on the development of the Pfizer and Moderna vaccines on our Blue Shield [COVID-19 B2B site](#) along with government and public health resources.

Promoting facts about the vaccines while separating science from fiction becomes an important tool in the fight against the virus and returning back to normal.

To clear the air and educate our members, we've created two helpful and easy to share resources:

- Our [Four things to know about the COVID-19 vaccine](#) flyer covers the nuts and bolts information like cost, administration, and distribution.
- The [Myth-busting: 7 facts about the COVID-19 vaccines](#) tackles common myths and shares the facts behind the fictions.

Blue Shield of California is committed to providing access to high-quality, affordable health care that is worthy of our family and friends. To us that means promoting the vaccine, educating our members and their communities, and slowing the spread of the virus. For more information and resources, please visit our [COVID-19 B2B site](#).
