2ND ENGINE EQUITY LONG SHORT INDEX

Index Overview

Equity long short managers can take both long and short positions, and maintain a net long position in equity markets. Managers generally aim to achieve higher risk-adjusted returns compared to broad equity markets. Strategies can vary widely in terms of region, net exposure level, leverage, holding period, concentration and valuation range.

Objective

Establish an appropriate and representative baseline for measuring the performance of the liquid alternative strategies in Canada.

Key Features

- Designed to measure the performance of the liquid alternative universe that is increasingly popular, but difficult to track
- Constituents comprised of NI 81-102 alternative mutual funds
- Consists of 1) an overall index, 2) seven strategy-based indices, and 3) three goal-based indices
