(Senior) Frontend-focused Engineer (m/f/d)

We are looking for you - take off with us!

As a pioneering InsurTech start-up, we at Finanzchef24 know exactly which requirements the self-employed and entrepreneurs have of their insurance. That's why we successfully bring business insurance and digital innovation together. Since 2012, around 50 colleagues have been doing their best every day in beautiful Munich to provide our customers with the best possible advice and insurance cover.

And we are successful with it:

we reach more than one million users per year with our online presence and more than 50,000 customers have already obtained their insurance through us. Driven by our values: #kicktraditions, #keepitsimple, #havefun und #makeithappen – we grow continuously, which led us into Deloitte's Technology Fast 50, while Gründerszene also considers us one of the fastest 50 growing tech-startups in Germany, both for the 3rd time in a row.

Would you like to continue writing the Finanzchef24 success story together with us?

Then apply now!　　>

What you should expect from your role:

- improving the user experience and the insurance advice process of our customers, both from a product as well as from a technical point of view, together with your colleagues in a cross-functional team

- working on all customer touchpoints: from the landing pages, through our advisor app to the emails we send to our customers, all built with our in-house design system and its React-based reusable components which you will also further co-develop

- do necessary changes in our NodeJS backend and to our GraphQL API to avoid dependencies to other teams or team members

- decide on the future technologies we shall use, together with the team – we just introduced Next.js for SSR

- sharing your knowledge – with both our junior and senior engineers. You can do this both in dedicated environments – like our internal blog, our fortnightly internal tech talks or our innovation days – as well as, of course, in your day-to-day work

Finanzchef24 GmbH · Hohenlindener Str. 1 · D-81677 München · E-Mail: info@finanzchef24.de · Tel.: +49 89 / 716 772 700 · Fax: +49 89 / 716 772 800 · Amtsgericht: Registergericht München · Handelsregister-Nr.: HRB 199427 · Ust-ID-Nr.: DE284168931 · Finanzamt für Körperschaften München · Geschäftsführer: Benjamin Papo, Tobias Wenhart

Impressum · Wegbeschreibung · Hinweis zur Datenverarbeitung an Bewerber gemäß Art. 12 ff. DSG-VO

What we expect from you:

- production experience with React, deep knowledge of the framework and enjoying working with it

- being an expert in CSS

- sharing our values when it comes to code quality – experience with testing is crucial

- a product-oriented, user-centered thinking and the drive to build something great

- experience with APIs – ideally GraphQL, as we rely on it more and more

- learning continuously and always staying up to date, while also sharing your knowledge

- ideally basic knowledge of Kubernetes and AWS, as we rely on both for managing our deployments

Our benefits:

- Flexible working hours and home office

- Company pension scheme

- High-end hardware (we prefer MacBook Pros)

- Conference & training budget

- Numerous company & team events

- Free fresh fruits, coffee, drinks and table football at the office ☺
