

Senior DevOps / Site Reliability Engineer (m/f/d)

We are looking for you - take off with us!

You may not heard of us, yet. But we think we are pretty cool. Who are we?

Finanzchef24 is a pioneering InsurTech start-up in Germany. Our vision is to fill business insurance with life, making it totally transparent, easily comparable, and completely digital. Since 2012, more than 60 colleagues in beautiful Munich have been working passionately to bring that vision to life.

And we are succeeding!

With our online-presence we reach more than one million users per year and with more than 50k customers we provide the best products in business insurance. We live by our values – **#kicktraditions**, **#keepitsimple**, **#havefun** and **#makeithappen** – together with our customers. We provide easy, fast and individual solutions, making insurance accessible to all.

We love tech, for sure. And high-end hardware (we prefer MacBook Pros).

So, finished with this corporate talk:

we, the tech division, need your help!

[Apply now!](#)

What you should expect:

- developing our SRE culture and environment by bringing in your experience
- closely collaborating with our product teams and improving the developer experience
- improving our release management and our CI/CD pipelines
- finding creative solutions to enable our product teams to self-manage their cloud resources
- using state-of-the-art technology and the openness to always find the best solution

What we expect:

- experience with Docker and orchestration technologies in a production environment - preferably Kubernetes
- good knowledge of automation tools and configuration management - we use Terraform and Ansible
- very good knowledge of at least one logging, monitoring and tracing solution (e.g. Datadog)
- hands-on experience with at least one cloud provider - preferably AWS
- continuously learning and staying up to date, and also sharing your knowledge
- a good understanding of code - preferably NodeJS - as well as experience with databases are definitely a plus
- being aware of the importance of your role, keeping our systems running and our business growing

What we offer:

- flexible working hours and working from home
- company pension scheme
- high-end hardware (we prefer MacBook Pros)
- conference & training budget
- numerous company & team events
- free fresh fruit, coffee, drinks and table football/foosball at the office

#makeithappen
