

Sprint Towards Mission Outcomes

Security, agility, and visibility

MISSION-READY SECURITY

- Trusted by federal agencies: DISA IL-4/5 certified and FedRAMP Moderate+ certified.
- Top-secret, Level B certification
- Complies with NIST CSF, NIST 800-171, FIPS 140-2, and ISO 27001
- Authority to Operate on Joint Worldwide Intelligence Communication System (JWICS)
- Authority to operate in the U.S. DoD: NAVSEA ATO at IL4/IL5 for CUI and DISA ATO and Support for ITAR
- In sponsorship for ATO on SIPR

NEXT-LEVEL AGILITY

Bluescape is a secure virtual workspace that allows dispersed Agile teams to plan and perform like they are all in the same room. With virtual whiteboards, templates, presentation tools, and integrations with all other tools of choice, Bluescape drives efficiency and productivity—from program increment planning through project delivery.

CONNECT TEAMS

Secure access anytime, anywhere. Centralize tools, aggregate data, and drive communication and collaboration—eliminating information gaps, miscommunications, and delays.

ACCELERATE WORKFLOWS

Align teams for planning and coordinating work on projects, sprints, or development. Bluescape is a single pane of glass solution for creating and managing workflows in real-time, driving agility at an enterprise scale.

INCREASE TRANSPARENCY AND OPENNESS

Visualize workflows, tasks, and processes. Aggregate and share information. Interact in real-time and asynchronously through persistent, visual workspaces.

BLUESCAPE SOLVES AGILE CHALLENGES

- **Location**
Geographically dispersed teams can connect and engage
- **Limitless Collaboration**
Accommodates both large groups of real-time contributors and their most complex projects
- **Versatility**
Templates and artifacts can be created once, then deployed and run at any level of secure networks

STAY ON THE SAME PAGE, EVEN IF YOU ARE NOT IN THE SAME ROOM

Bluescape brings content and data together in a workspace to create a single source of truth.

FEATURING

VIRTUAL WORKSPACES

Add, organize, and discuss content in an infinite collaborative canvas securely accessible from any device, at any time.

WHITEBOARDING

Use drawing and diagramming tools and virtual sticky notes to create planning boards, track progress, and capture and organize ideas and actions.

TEMPLATES

Support your ceremonies and Scrum teams with a library of templates. Customize or create your own templates, complete with access controls.

CONTENT SUPPORT

Securely share files, documents, live data, websites, applications, and high-resolution images and videos. Add links to approved cloud file-sharing services, including Microsoft GCC High.

ANNOTATION AND COMMENTS

Capture feedback and mark up documents with drawing tools. Add comments and @mention colleagues to keep everyone on the same page.

POPSYNC METASEARCH

Search multiple asset repositories at the same time and quickly review results in the workspace.

DEPLOYMENT OPTIONS

Flexible deployment options include public and private cloud. Physical installations on-premises and in air-gapped environments are also available.

API

The Bluescape API enables bi-directional integrations with third-party platforms and AI/ ML solutions to see information in context and streamline workflows.

BRING YOUR OWN DEVICE

Access your workspaces and work together with others through your web browser or our desktop, mobile, and in-room clients.

ABOUT BLUESCAPE

Bluescape makes the impossible—possible. Secure, collaborative workspaces accelerate discussions into full-scale planning sessions, collaborative development, and content interactions. Move beyond whiteboards and screen shares to project execution.

Bluescape customers include Fortune 100 companies, government agencies, higher education, and media and entertainment.

A Silicon Valley-based company, Bluescape was founded and is based in the United States.
