

## LEVEL 1 – INFORMATION ADVISORY

October 21, 2024

### Potential Elevated Flare Due to Maintenance

The Parkland Burnaby Refinery experienced a minor upset with a piece of equipment, which resulted in temporary elevated flaring this morning. We will be taking some refinery processing units offline to conduct minor maintenance on this equipment over the course of the week. During this time, nearby residents may notice a higher-than-normal flare and potential noise from the flaring.

The Refinery is committed to safe, reliable and efficient operations. All safety and environmental protocols are being followed, and all required regulators have been notified.

For more information, please contact our community phone at 604-257-4040 or the on-duty shift supervisor at 604-257-4926.

Nick Middleton, Director of Operations  
Parkland Refining B.C. Ltd.
