General User Information

FleetPro Online Access Agreement

TERMS AND CONDITIONS:

Access to Parkland Refining (B.C.) Ltd. ("Parkland")'s online systems give the Customer the ability to view and make changes to their account, including changes to the billing address and phone number, order new cards, make changes to existing cards, lock cards, and view and change sensitive PIN information. The Customer is responsible for adhering to the Terms and Conditions contained herein, in addition to adhering to the procedures and requirements of the FleetPro User Manual. Safeguarding sensitive data including PIN information is extremely important and is the responsibility of the Customer. Any misuse of the FleetPro online card management system or failure to comply with these Terms and Conditions and FleetPro User Manual by the Customer or its employees, agents or contractors is the sole responsibility of the Customer.

The Customer agrees to indemnify and hold Parkland harmless from and against any and all damages, loss or liability of whatsoever kind and nature that arises from the misuse of the FleetPro online card management system or the failure to follow the requirements or procedures contained in these Terms and Conditions and the FleetPro User Manual, whether by the Customer or its employees, agents, contractors or those for whom they are responsible in law.

LOST OR STOLEN CARDS – The Customer is responsible for cancelling lost or stolen cards and is liable for all purchases incurred until the card is cancelled by the Customer. In the event that the Customer cannot access their account online the Customer is responsible for notifying Parkland of the lost/stolen card by calling 604-668-5386 (1-800-331-7353).

Use of the FleetPro online card management system constitutes agreement to and acceptance of these terms and conditions.

Site Access

Site access is set-up by Parkland, using an email address provided by you. For Administrator access to FleetPro, it is highly recommended for security purposes that you use a unique email used only by yourself. Once access is set- up, a temporary password will be generated by the FleetPro system and sent to your email address, **you must change this password within 3 days of receiving the email**. You are responsible for the security of your password.

Once you have logged in to the site, you will see the following screen, which will give a quick snapshot of your current account usage for the month and the number of US gallons available for you in the month.

WELCOME

| | |
|--------------|----------|
| Gallon Limit | 2,000.00 |
| Gallons Used | 766.00 |
| Available | 1,234.00 |

Welcome to the Chevron Commercial Fleet Card program.
We appreciate your business and any suggestions you may have in making this web site more useful to your company.

To exit, always use the Logoff button located at the top right corner of the screen before closing the web browser.
This will ensure confidentiality of your account.

By accessing this web service, you confirm that you are an authorized user and have agreed to the Conditions of Use.
Unauthorized use may be referred to the appropriate authorities.

Access Classifications

Administrator Access

Administrator access provides the ability to change account contact information, billing information, order or cancel cards, make changes to existing cards, lock cards, and change PIN (called DIN on FleetPro) information. Account administrators can also provide Read-Only access to other company users. Both levels of access provide sensitive account information, and should be tightly controlled to reduce the potential for card misuse. Parkland strongly recommends at a minimum the following measures to protect sensitive account information:

- Limit FleetPro access to a single Administrator and provide Read-Only access only to necessary users,
- Never share PIN/DIN information,
- Never record PIN/DIN information on or with cards,
- Ensure sensitive account information on-screen is not visible to others while using FleetPro,
- Do not leave FleetPro logged on while away from the computer,
- Change all FleetPro passwords and log-in information following personnel changes.

Read-Only Access

Read-Only access allows users to view card settings. Read-Only access also provides the ability to view PIN/DIN information. It is the responsibility of the Administrator to ensure account access is controlled in a suitable manner to prevent card misuse.

Password Changes

Click on the “Change Password” link at the top right page to customize your password. The “Site Locator” link will take you to Parkland’s Chevron-branded cardlock directory. “Contact Us” enables you to send us a message with any questions you may have about your account.

My Account

Account Information

Click on this link to see the current volume usage and billing details for your account. With Administrator access, you will also be able to make address and/or phone number changes to your account by using the “Edit” button below your address information.

The screenshot shows the 'My Account' page. On the left is a navigation menu with 'My Account' (highlighted with a red box), 'My Cards', and 'My Tools'. The main content area is divided into two sections: 'ACCOUNT SUMMARY' and 'ACCOUNT DETAIL'. The 'ACCOUNT SUMMARY' section shows usage statistics as of 12-18-2008 10:37. The 'ACCOUNT DETAIL' section shows the account number 111111 and a form for updating the billing address, including fields for contact name, company, address lines, city/state/zip, and phone numbers. An 'EDIT' button is at the bottom right of the form.

Maintain Users

This section allows set-up of customized FleetPro access for users within your company.

Use the “Add” button to add new users. Enter the Email ID and name of the new user, and choose the appropriate level of access for the account.

If choosing read-only access for a new user, check the “**View Billing Information**” box, and leave the remaining boxes unchecked.

“**Update Privileges**” allows a user to order and lock cards as well as make address changes.

“**Display Search**” allows a user to sort card and transaction lists in FleetPro by column headings. This feature is not recommended for accounts with less than 20 cards.

“**Maintain Users**” allows a user to add and remove FleetPro access for new and existing users.

The screenshot shows the 'Maintain Users' page. It has two main sections: 'USER LIST' and 'USER DETAIL'. The 'USER LIST' section shows a table with columns for EMAIL ID, NAME, and LAST LOGIN. The 'USER DETAIL' section shows a form for editing a user, with fields for Email Id and Name. Below the form are checkboxes for 'View Billing Information', 'Update Privileges', 'Display Search (not recommended!)', and 'Maintain Users'. At the bottom are buttons for 'ADD', 'EDIT', 'REMOVE', 'RESET PASSWORD', and 'SHOW PASSWORD'. The 'ADD' button is highlighted with a red box.

My Cards

Vehicle Profiles

This section allows you to view the card profiles available on FleetPro. A profile describes all the characteristics of a card, including the products allowed, the gallons per day restrictions, as well as the manual pump prompts that occur at each purchase (such as DIN, Odometer Reading, and Miscellaneous Number). **DIN (also referred to as PIN) numbers are a key security feature and are mandatory on all cards. The Account Holder is responsible for the security of all DIN information.** On the right side of the page you will see how many cards you have within each of the profiles. Clicking on the **“View Cards”** button at bottom will give you a summary of cards for the profile in Microsoft Excel. Profiles cannot be edited.

Importantly, geographic access and marked fuel access for your cards is maintained by Commercial Account Services. Please call 1-800-331-7353 or email CommercialFuels@parkland.ca to update this aspect of your account.

There are 30 Profiles available on FleetPro. A summary and description of each profile is listed at the end of this document.

VIEW CARDS

Vehicle Cards

This screen allows you to view your cards (including PIN/DIN numbers & recent transaction information), order new cards, deactivate existing cards, view transaction information, and troubleshoot individual cards.

To view all existing cards, click on the **“Search”** button on the top right side of the page.

Note that cards can be viewed under 3 sections: **“Active”**, **“Inactive”**, or **“All”**. An individual card can also be searched for by entering the last six digits in the top right field named **“Last 6”**.

As you click on a card in the “**Vehicle Card List**”, at the bottom section of the screen – called “**Vehicle Card Detail**” – you will see the details of that particular card:

VEHICLE CARD SEARCH

Order New Cards

Use the “**Add**” button under the “Vehicle Card Detail” section to order new cards for an account.

Use the drop-down box under “**Profile**” to choose the appropriate profile for your new card.

Enter a “**Description**” that will help you to locate or sort the card in the future (a driver’s name, for example.)

VEHICLE CARD DETAIL View Change History Help

Profile: **All Fuels, PIN 30 Trx/Day** Card Type: **CFN Network Card**

Description: Vehicle:

Department: **None** Card DIN: **4863**

Card Number: Current Status: Last Tran Date:

Card Issued: Last Change: Last Tran Amount:

Card Expires: Last Odometer:

SAVE **CANCEL**

The description field will not appear on the card itself. You have the option to enter a 4-digit vehicle number on your new card. This number will appear on your card as well as your cardlock statement. Letters or other characters will not work in the vehicle number field. You can also choose your own 4-digit PIN number. By leaving the field blank, a random PIN will be assigned to you.

Click on “**Save**” to finish ordering your card.

Cancel or Temporarily Hold Cards

Use the “**Lock**” button to deactivate a card.

Troubleshoot a Card

Use the “**One Week Snapshot**” button to troubleshoot a card. For example, if a card is not being accepted at the pump, click on this button to see the specific reason why.

| Snapshot (10-20-2016 - 10-27-2016) | | | | | | | | | | |
|------------------------------------|-----------|------------|---------|-------------------------|------------|----------------------|---------------|-------|------------|------------|

View Transactions on a Single Card

Use the “**Transactions**” button to check transactions on a specific card for a period of time.

Order a Replacement Card

By selecting a specific card on the Vehicle Card List and then clicking on the “**Send Me a New Card**” button, FleetPro will deactivate the selected card and order another card with an identical profile and PIN/DIN to replace it.

NOTE:

- Once you select “**Send Me a New Card**” the original card will no longer work.
- ALL TIME STAMPS AND TRANSACTION TIME DETAILS ARE LISTED IN CENTRAL MOUNTAIN TIME (CMT) IN FLEETPRO.

Make Changes to an Existing Card

FleetPro also allows a user to change the parameters of existing cards, within certain parameters. Allowable changes include:

- Changing a DIN (PIN) number on a card.
- Adding or removing a product on card (adding Gas to a Diesel Only card, for example) Aspects which **cannot** be changed include:
- Changing or adding a vehicle number on a card.
- Changing the fuelling prompt on a card (Miscellaneous or Odometer prompts, for example).
- Changing the geographic access area for a card – this change can only be made by Commercial Account Services.
- Adding marked fuel access to a card (can only be added by Commercial Account Services).

Change the DIN (also known as PIN) on a Card

Under Vehicle Cards, find the card that you would like to change by entering the last 6 numbers of the card number in the “Last 6” field, or simply click the “Search” button to scroll through all existing cards and click on the card:

The screenshot shows the FleetPro interface. At the top, there's a navigation bar with 'Home', 'Change Password', 'Site Locator', 'Contact Us', and 'Logo'. Below this is a sidebar with 'My Account', 'My Cards', and 'My Tools'. The main content area is titled 'VEHICLE CARD LIST' and includes a table with columns: LAST 6, CARD TYPE, DESCRIPTION, PROFILE, VEHICLE NUM, STATUS, and LAST TRAN. A table with 6 rows of card data is shown. Below the table is the 'VEHICLE CARD DETAIL' section, which includes fields for Profile, Description, Department, VIN, Card Type, Card DIN, License Plate#, Card Number, Card Issued, Card Expires, Current Status, Last Change, Last Tran Date, Last Tran Amount, and Last Odometer. The 'EDIT' button is highlighted in red.

Click on the “Edit” button and change the “Card DIN” field to your new 4-digit DIN, then click “Save”.

This screenshot shows the 'VEHICLE CARD DETAIL' page. The 'Card DIN' field is highlighted in red. The page includes fields for Profile, Description, Department, VIN, Card Type, Card DIN, License Plate#, Card Number, Card Issued, Card Expires, Current Status, Last Change, Last Tran Date, Last Tran Amount, and Last Odometer. The 'SAVE' and 'CANCEL' buttons are at the bottom.

Add or Remove a Product on an Existing Card

Select the card as outlined above, then click on the “Edit” field.

Click on the drop-down arrow under “Profile”, and select an alternate Profile, then click “Save”. Only alternate profiles with the same pump prompts (Miscellaneous or Odometer prompts, for example) will be available.

Changes to cards take approximately 15 minutes to take effect.

This screenshot shows the 'VEHICLE CARD DETAIL' page. The 'Profile' dropdown menu is highlighted in red. The page includes fields for Profile, Description, Department, VIN, Card Type, Card DIN, License Plate#, Card Number, Card Issued, Card Expires, Current Status, Last Change, Last Tran Date, Last Tran Amount, and Last Odometer. The 'SAVE' and 'CANCEL' buttons are at the bottom.
