

Offset your carbon footprint for just pennies per gallon

When you purchase fuel from Sol, it's easy to offset your carbon emissions at the same time. We offer offsets for all your gasoline, diesel and LPG purchases, and you can offset anywhere from 5% to 100% of your emissions.

FLEXIBLE SOLUTIONS

We offer flexible packages of offsets to fit your company's sustainability strategy. You can choose from a variety of offsets based on location, project type, vintage, volume or price.

COMPETITIVE PRICING

You'll find our offsets portfolio offers economies of scale, providing the most cost-effective solutions. Your organization's investment in offsets goes further when you purchase them through us.

TRUSTED PARTNERS

All our offsets are quantified using approved science-based protocols and third-party auditing. You'll find them listed on registries including Verra, American Carbon Registry, Climate Action Reserve & Gold Standard.

Parkland

CARBON OFFSETS. ONE STEP CLOSER TO NET ZERO.

As part of Ecolution, Sol's enterprise-wide sustainability strategy, our extensive carbon offset portfolio can help our customers achieve their climate action goals. We invest in projects that reduce emissions through forestry, landfill gas management, biomass, biofuels and other methods. Effectively, each carbon offset purchased represents one tonne of emissions removed or avoided.

Through our Canadian affiliate, Elbow River Marketing, Sol is proud to offer our customers carbon offset options that are second to none. A market leader for 35 years, Elbow River thoroughly vets and researches carbon reduction projects around the world.

COMPETITIVE AND FLEXIBLE CARBON OFFSET PRICING*

Type of Fuel Offset	50% OFFSET		100% OFFSET	
	Technology	Nature-Based	Technology	Nature-Based
