Looking to the Future

Sol Airport NTI Service Station – Barbados

Context

Sol Ecolution is solarizing Sol Petroleum's network of over 220 retail stations, offices, and terminals in the region.

Sol Ecolution began this initiative in 2021 by solarizing the Sol Airport NTI Service Station in Barbados as its flagship site.

Impact

The Sol Airport NTI Service Station will **offset an estimated 76.5 metric tons of greenhouse gas emissions per year.**

This is the equivalent of:

9,310,249

Smartphones
charged per year

- or -

90.6

Acres of forest
carbon capture per
year
