## Looking to the Future

### Esso Oaksfield Service Station – The Bahamas

#### Context

Sol Ecolution is solarizing Sol Petroleum’s network of over 220 retail stations, offices, and terminals in the region.

Commissioned in 2022, The Oaksfield Service Station was Sol Ecolution’s first operational site in the Bahamas. Sol Ecolution is solarizing 14 more sites in the Bahamas.

#### Impact

The Esso Oaksfield Service Station will **offset an estimated 57.4 metric tons of greenhouse gas emissions per year.**

This is the equivalent of:

**6,982,687**

Smartphones  
charged per year

- or -

**67.9**

Acres of forest  
carbon capture per  
year

- or -

**142,487**

Miles driven by the  
average vehicle
