

OUR WORK

The **Justice Climate Fund** (JCF) is a purpose-built nonprofit financial institution that is building the field and deploying capital through CDFIs, credit unions, MDIs and green banks as to enable families, communities and businesses to save money while investing in a greener and safer future.

OUR COMMUNITY

Founded by the **Community Builders of Color Coalition**, JCF is comprised of a growing national and diverse network of financial institutions and advocacy organizations who have been working for many decades with, for and in communities that have been historically left behind.

OUR STRENGTHS

Collectively, JCF has financial strength, a vast grassroots presence and expertise in green lending.

OUR APPROACH

COMMUNITIES FIRST. JCF delivers products, services and solutions that are identified by communities. This ensures that their needs are recognized, understood and sustainably addressed.

DISTRIBUTED STRENGTH. JCF mobilizes the networks and experience of its members' local organizations to efficiently deploy capital and support in communities.

NUMEROUS BENEFITS. JCF simultaneously delivers greenhouse gas reduction as well as economic, health and other benefits. In urgently responding to both climate change and the priority needs of communities, it works to achieve a climate transition that benefits all.
