Azure SQL Entry Solution

Unlock Your Data Potential with Scalable, Secure Cloud Solutions

Overview

The Azure SQL Entry Solution is a comprehensive, entry-level solution designed to modernise your data infrastructure. Perfect for companies with moderate data volumes, it integrates cloud capabilities with on-premise sources, enabling efficient reporting and analytics. This package includes Power BI licenses, training, and tailored data models to enhance business intelligence and decision-making.

Key benefits

1. **Single Source of Truth:** Consolidate data for reliable insights.
2. **Self-Service Analytics:** Empower teams to create reports and dashboards with minimal IT support.
3. **Quick Deployment:** Rapidly transition to the cloud with fast results.
4. **Scalable:** Grow your infrastructure as your business evolves.
5. **Affordable:** Pay-as-you-go pricing based on actual usage.

Technologies used

1. **Azure Data Factory:** Simplify data orchestration and integration.
2. **Azure SQL Database:** Secure, scalable cloud database.
3. **VPN Gateway & Virtual Machines:** Seamless, secure connection between on-premise data & cloud.
4. **Microsoft Defender for Cloud:** Advanced security for your data.
5. **VPN Appliance:** Secure tunnelling for data exchange.

Who benefits

- ✓ **SMEs in South Africa & Africa:** Cost-effective cloud solutions with no high upfront costs.

- ✓ **First-Time Cloud Users:** Easy, low-risk introduction to cloud technologies.

- ✓ **Client Reporting Firms:** Share secure cloud reports with clients.

- ✓ **Large Enterprises:** Offload reporting and analytics to the cloud for better efficiency.

What Keyrus delivers

- ✓ **Power BI & Training:** Access to business intelligence tools with expert training.

- ✓ **Data Engineering Services:** Clean, scalable data solutions for fast, reliable analysis.

- ✓ **Integrated Data Solutions:** Combine on-premise, cloud & external APIs for quick data-driven decisions.

We offer dedicated account management with proactive engagement, technical troubleshooting and maintenance, a self-service portal for managing cloud resources and accessing training, and community engagement through workshops, webinars, and forums for knowledge sharing.
