Beginner course: Introduction to Qlik Sense

This 2 day introductory course to Qlik Sense Cloud will guide users in a basic dashboard creation. This course covers an introduction to data prep, data modelling, design of a basic dashboard using effective visualisations with little tips and tricks.

Who will benefit

- **Individuals** new to data analytics
- **Professionals** seeking to understand the fundamentals of Qlik Sense
- **Business users** aiming to leverage data for informed decision-making

Course content

1. Overview of Qlik Sense:

- Understanding the Qlik Sense interface
- Key features and functionalities

2. Data Loading and Preparation:

- Connecting to Excel data sources
- Basic data loading techniques

3. Creating Visualisations:

- Designing bar charts, line charts, and tables
- Utilising selection and filtering options

4. Master Items:

- Creating and managing master dimensions and measures
- Standardising visualisations using master items

5. Building Dashboards:

- Combining multiple visualisations
- Best practices for dashboard design

Pricing

Users	*Cost/course/person	Duration
3	R7,200 ex vat	2 days
4-5	R6,600 ex vat	2 days
6-7	R6,000 ex vat	2 days
>7	R5,400 ex vat	2 days

The outlined pricing is based on virtual (on-line) format.

Book your Intermediate Qlik training

Advanced course: Qlik Sense scripting and performance optimisation

This 2 day advanced course to Qlik Sense Cloud will challenge users to solve modelling conflicts with complex scripting and data transformations. Guidelines will be provided for effective debugging technique and design considerations to ensure your models are optimised with best practices and good data governance.

Who will benefit

- **Experienced Qlik Sense developers**
- **Data architects** and **IT professionals**
- **Individuals** responsible for complex data integration and application performance

Course content

1. **Advanced Scripting Techniques:**

- Developing complex data load scripts
- Debugging Qlik scripts

3. **Security and Access Control:**

- Setting up section access for data security
- Managing user roles and permissions

2. **Performance Tuning:**

- Optimising data models for performance
- Best practices for application responsiveness

4. **Extending Qlik Sense:**

- Using custom extensions

The outlined pricing is based on virtual (on-line) format.

Book your Advanced Qlik training

Certification of attendance

Upon successful completion of your selected course you will receive a digital certification of attendance. This certificate of attendance will serve as a proof of your newly gained capabilities in Qlik.

Additional course information

All training courses are available in a live virtual format or in person.

Pricing for training courses for less than 3 and for groups of 10 or more participants will be provided on request.

Pricing can be customised to your requirements. Please contact us at **sales@keyrus.co.za** for a detailed quotation

Prerequisites: Own laptop. Latest version of free Qlik Sense installed and activated.

Testimonials

“

Extremely enjoyed the training.

The content covered was valuable and will contribute to my day-to-day tasks.

The training material was very detailed and easy to follow.

The sessions are very interactive and allowed for questions and engagement.

I like that the training was very hands-on. This allowed us to work on exercises and ask the necessary questions.

”
