

Round Plastic Diffuser - PCD

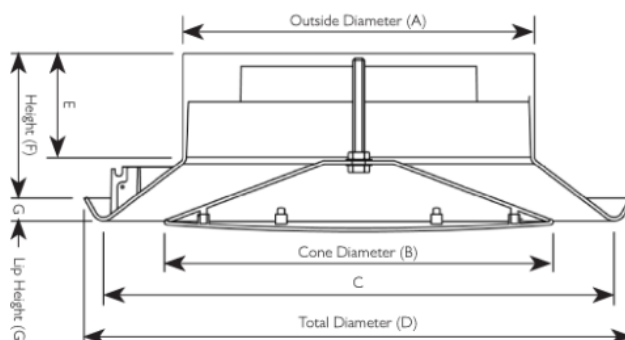

The Polyaire Round Ceiling Diffuser is manufactured from high impact ABS for long term strength and rigidity. It is fully adjustable by rotating the centre cone from total shutoff to fully open.

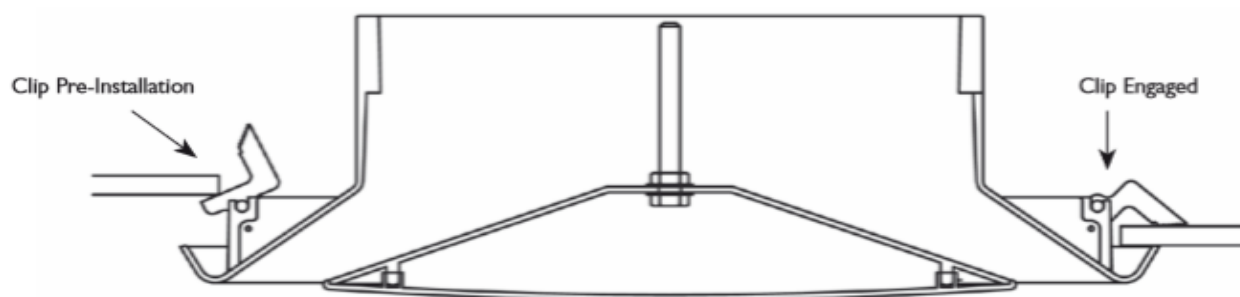

The standard colour is off-white, the outer surface is lightly etched to reduce reflection and fit unobtrusively with most decors. Available in 3 sizes, it allows for smooth quiet airflow that flows out in a concentric pattern across the ceiling, to provide good coverage in both cooling and most heating applications.

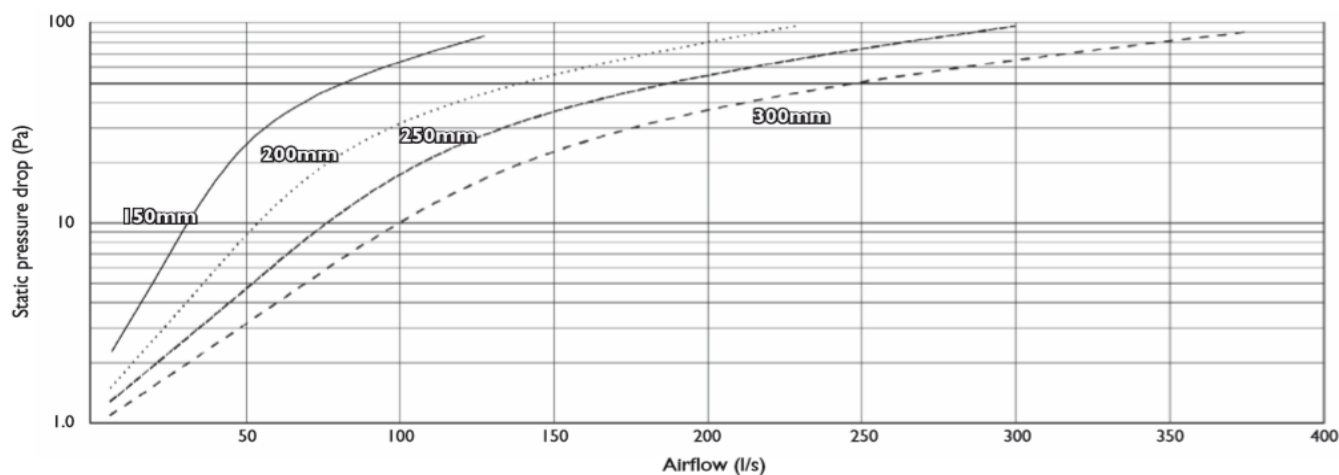

Size & Dimensions

Number	Description	A	B	C	D	E	F	G
235384	150mm diam Round Ceiling Diffuser	150	170	230	250	73	95	16
237100	200mm diam Round Ceiling Diffuser	200	225	294	318	75	95	17
237101	250mm diam Round Ceiling Diffuser	250	275	361	390	75	100	17
237102	300mm diam Round Ceiling Diffuser	300	326	411	441	70	103	17

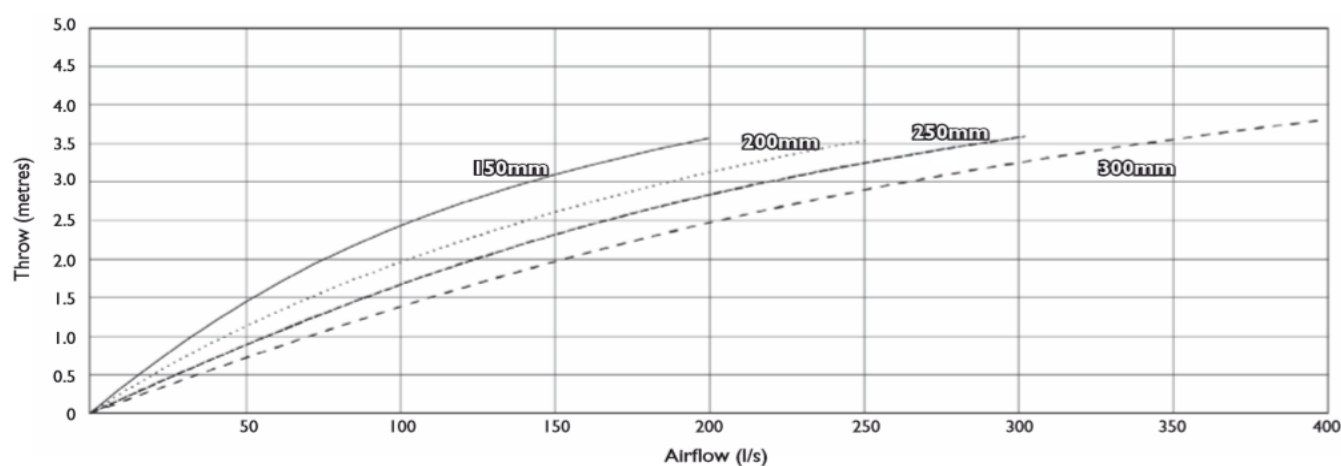

Operation of toggle clips

Static pressure drop versus airflow

Throw versus airflow
