## Coaching team for apprentices

Apprenticeships are split into three elements; Knowledge, Skills and Behaviours. Knowledge is covered by lessons here at The Manor. Coaches work with you four times a year to help develop your skills and behaviours.

- Help you showcase your development and achievements, assisting with your project report as part of the endpoint assessment
- Identify and work on key areas that you would like or need to improve, for example presentation skills
- Help you develop the required skills and behaviours needed for a professional accountant

This coaching programme helps you to be the best accountant you can be, giving you the edge in your workplace. It develops you as an individual and helps you showcase your reflective learning and achievements in your project report. Ultimately, the coaches help you develop to improve your workplace performance to get the results you and your employer want.
