

# On-demand employee virtual healthcare solution

Akira instantly connects your employees to Canadian registered nurses and nurse practitioners who can triage, diagnose, refer and provide prescriptions and medical advice related to a wide range of health concerns — whether your employees are at home, at work or on vacation.

## **Limit absenteeism**

Get care at the earliest sign of illness. Resolve healthcare concerns virtually, all while skipping waiting rooms and travel time.

## **Increase productivity**

Promote proactive health habits. Health consults can be initiated right from the office or at home by secure text when convenient.

## **Promote work-life balance**

Enhance employee satisfaction with benefit packages to match the needs of today's lifestyles.

## **Unlimited access**

Worldwide access to healthcare for employees traveling within or outside Canada – for as long as needed.

## **Easy and intuitive**

A mobile virtual care solution for your employees that's simple and easy to use.

## **Custom integration**

Turnkey offering including program roll out, member on-boarding, ongoing employee communication support and friendly help desk.

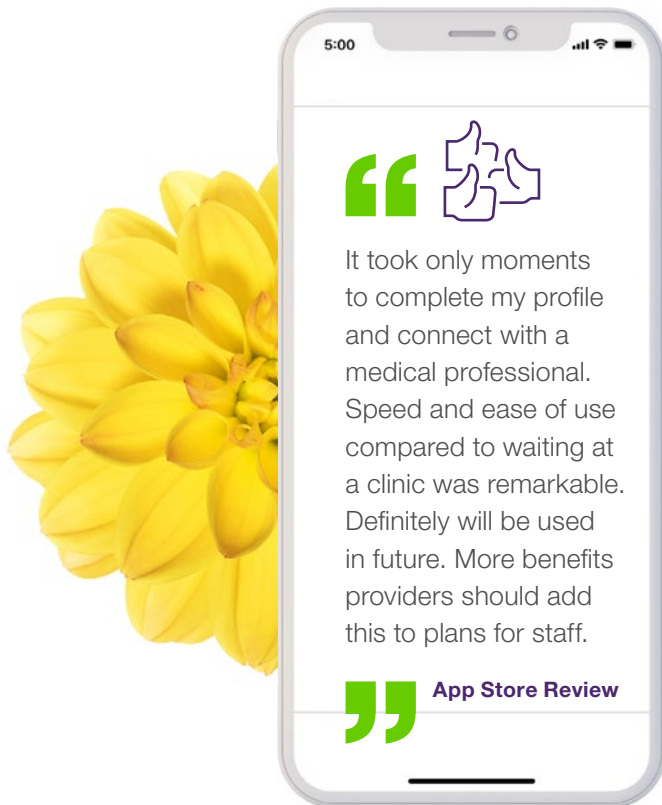

### **Care – when and where it's needed.**

Akira is available 24-7-365, in English and French, for mental health support, prescriptions, diagnosis, referrals and more.

## Healthcare at your employees' fingertips.

Common illnesses, mental health issues and chronic conditions within your workforce can significantly affect your organization's productivity and bottom line by taking people out of the office and making them feel disengaged.

Akira addresses the health needs of your employees and their families through secure text and video chat — anytime, anywhere.
