

Eventide Large Cap Value ETF Fact Sheet

September 30, 2025

The **Eventide Large Cap Value ETF** is designed as a core investment solution for investors seeking to participate in the large-cap US equity market with a focus on value while adhering to Eventide's investment values and Business 360® framework. The Fund invests at least 80% in the securities of large-cap companies, which the Fund considers to be companies with a market capitalization of \$20 billion or greater.

All companies in the Fund are evaluated through Business 360®, Eventide's proprietary framework for assessing the moral quality of every potential investment. This process involves an initial screening of over 50 ethical issues based on data from multiple external vendors and reviews performed by Eventide's internal research team. Before being selected for the Fund, companies must pass Eventide's screening process, as well as undergo a qualitative review to determine if their products and practices are creating compelling value for all stakeholders. The Fund is then systematically constructed to seek optimal internal diversification and risk management, leveraging quantitative methods and tools. With differentiated holdings versus the benchmark, this is not passive indexing; rather, it is a faith-based alternative seeking cost-effective exposure to a broad market index.

This Fund was built to help bridge the gap for passive investors who wish to invest with uncompromising values in an active strategy with lower tracking error and fees than many other actively managed investment offerings. The Fund is not an index fund and the Adviser is not required to purchase any specific securities or amount of securities included in the Strategy Benchmark.

Trailing Returns¹ (%) 30 Sep 2025

	3-mos	1-year	5-year ⁵	10-year ⁵	Since Inception ⁵	Inception Date

The performance data quoted represents past performance. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For the most recent month-end performance, please call 1-877-771-EVEN (3836) or visit the Fund's website at www.EventideETFs.com. The ETF's net asset value, market price and returns will vary. Investors could lose all their money on their investments. There is no guarantee that the ETF will achieve its objective. ETF shares cannot be purchased or sold at NAV. They are bought and sold at a market price based on the price of the last reported trade on the ETF's primary exchange, NYSE Arca, and may trade at a premium or discount to their net asset value. ETFs are not individually redeemed from the issuer. ETF redemptions are limited and commissions are often charged on each trade.

- The returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption of fund shares. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes.
- The net asset value (NAV) is the value of one share of the Fund as of the date listed. The NAV is the value of a Fund's assets, minus the value of its liabilities. NAV does not take into account any initial sales charges that may apply when shares are purchased or redemption charges when shares are sold. Because ETFs

- trade like stocks at current market prices, shareholders may pay more than the Fund's NAV when purchasing Fund shares and may receive less than the Fund's NAV when selling Fund shares.
- The official closing price as of the end of the business day noted, from the primary listing exchange. The primary listing exchange for the Fund is the NYSE Arca exchange.
- The Bloomberg US 1000 Value Total Return Index provides exposure to companies with superior value factor scores based on their earnings yield, valuation, dividend

- yield, and growth.
- Performance figures for periods greater than 1 year are annualized. Annualized since inception figures use an inception date of 09/29/2025.
- This reflects the top 10 holdings as of the date noted. Top 10 holdings displayed are based on a percentage of total assets as of the date shown. Holdings are subject to change at any time. A full current list of portfolio holdings each business day is available for download in CSV or PDF format at www.EventideETFs.com. Holdings should not be considered investment advice.

Eventide Asset Management, LLC ("Eventide") is the investment adviser for the Fund. Investing in securities involves risk, including the possible loss of principal. There is no guarantee that any investment strategy will achieve its objective, generate profits, or avoid losses. Eventide's values-based approach to investment may not produce the desired results and could result in underperformance compared to other investments.

Investors should consider the investment objectives, risks, charges, and expenses of the Fund carefully before investing. To obtain the Fund's prospectus, summary prospectus, and statement of additional information, which contain this and other information, please visit the literature section of www.EventideETFs.com or contact your financial representative. Please read the prospectus carefully before investing.

Past performance does not guarantee future results. There is a risk that companies may discontinue paying dividends. The Fund is a new ETF with a limited history of operation for investors to evaluate. Large capitalization companies may be subject to more limited growth potential, and be less able to adapt to changing market conditions than smaller capitalization companies. The fund may be susceptible to an increased risk of loss because the Fund's investments may be concentrated in a particular industry or group of industries. The type of securities in which the Fund focuses may underperform other assets or the overall market. The Eventide Large Cap Value ETF is distributed by Foreside Fund Services, LLC ("Foreside"). Foreside is a separate entity from, and not affiliated with, Eventide.
