How did the Fund perform during the reporting period?

The Fund slightly outperformed the broad based benchmark for the year. Strong performance and stock selection in energy, healthcare, utilities, consumer discretionary, and industrials was offset by underperformance in technology, real estate, and communications services. The high-quality, dividend growth focus of the Fund and strong positioning in areas such as natural gas infrastructure, independent power producers, HVAC, electric power generation, auto dealerships helped offset underperformance versus the benchmark in areas such as technology software, hardware, and communications equipment. Our focus remains on resilient growth, strong financials, idiosyncratic risk, and the overarching theme of human flourishing. Our experience underpins our confidence that these high-quality dividend growth companies will continue to serve their customers, stakeholders, and shareholders effectively.
