

Eventide Exponential Technologies Fund

Class A (ETAEX)

Annual Shareholder Report - June 30, 2024

Fund Overview

This annual shareholder report contains important information about Eventide Exponential Technologies Fund for the period of July 1, 2023 to June 30, 2024. You can find additional information about the Fund at <https://www.eventidefunds.com>. You can also request this information by contacting us at 1-877-771-3836.

What were the Fund's costs for the last year?

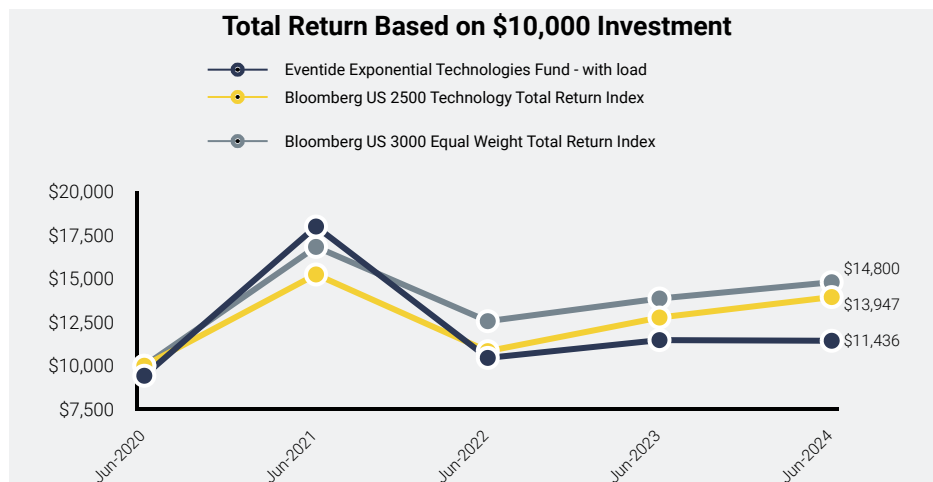

(based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Class A	\$168	1.68%

How did the Fund perform during the reporting period?

The fiscal year began with the widest market dispersion between large and small companies in 20 years. This fissure provided opportunities to assert a contrarian position aligned with our vision for long-term success. At year's end, the Fund – focusing on the long-term growth potential of small and mid-cap companies driven by innovative, high-performing cultures and strategic, high-integrity leadership – struggled against the overperforming large and mega-caps. We remain convinced the laggards harbor substantial potential, though they have in the short term negatively affected performance. Our fundamental analysis reveals companies we believe are unfairly overlooked, a dynamic that can present investment opportunities at attractive prices. We are confident in the Fund's portfolio companies and look forward to the market realizing their potential.

How has the Fund performed since inception?

The Fund's past performance is not a good predictor of how the Fund will perform in the future. The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares. In connection with new SEC Rules on shareholder reporting, the Fund's performance information above is compared with a broad-based benchmark, Bloomberg US 3000 Equal Weight Total Return Index, which represents the overall domestic equity market. In addition, the strategy benchmark, Bloomberg US 2500 Technology Total Return Index, is included as the adviser believes it is more representative of the fund's investment universe.
