CoreMaster™

**Single instrument for
different diameters**

**Digital core orientation
system that provides
structural characteristics
of a geological core
sample**

CoreMaster™

Technical Specifications

Dimensions		Battery	
Core Sizes	N, N2 (NTK), N3, NTW, H, H3, HTW, P, P3	Battery Type	Non-rechargeable lithium battery pack
Length	259 mm (10.2")	Operating Time	> 6 months
Weight	2,4 kg (5,3 lbs)		
Operational Environment		Data	
Depth Pressure	5000 psi	Communications	Bluetooth®
Operational Temperature	-30°C – +75°C (-22°F – +167°F)	Export	SPT SmartCloud via WIFI or 4G LTE
Performance*		Handheld Device	
Inclination Range	-87° – +87°	Battery	4/6 hrs (8580 mAh)
Toolface Accuracy	0,6°	IP Rating	IP68, IP69K
Toolface Range	0 – 360°		

* Accuracy quoted at 1σ

Benefits
For geotechnical and mining industries
Single instrument for different diameters
User friendly application with QA/QC integrated
Records inclination and temperature
Follow remotely the ROP of your drillholes
SPT-CLOUD compatible
Valve system to ensure pump-in time is not compromised
No need to open the thread for pairing/connection »»» high speed Bluetooth

Application

Digital core orientation system that provides directional characteristics of a geological core sample extracted from the subsurface and other key data in core drilling operations such as temperature and inclination.

High level of data accuracy leads to better understanding of the composition of the subsurface. However, in order to accurately interpret the information obtained from the core sample, it is necessary to have knowledge of the orientation of the core sample relative to the subsurface from which it was extracted.
