

INTEGRATIONS DONE RIGHT

- **Productized integration**
- **Real-time order and screening status**
- **Configurable account and notification setup**

Recruiting top talent is critical for the success of any organization

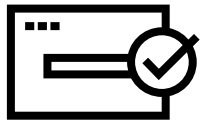

ServiceNow and HireRight have built an integrated solution to consolidate critical recruiting and background screening requirements into one solution to deliver convenience, control, and faster results.

With just a few clicks, recruiters and hiring managers can initiate a pre-employment background check on candidates directly within ServiceNow HR Service Delivery platform. Once a background check is initiated, information entered into ServiceNow is pre-populated in the background check form, reducing duplicate data entry. Then, an email is sent to the candidate to provide any additional information.

Once HireRight conducts the background check, results are visible to the recruiter and/or hiring manager within the ServiceNow HR Service Delivery platform.

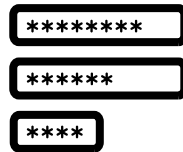

Our integration is easy to implement, with no middleware or development required. Future HireRight solution enhancements ensure maximum long-term ROI. HireRight's dedicated integration team of experienced pre-sales and technical consultants work closely with you to ensure an efficient implementation.

Integration Advantages:

Streamlined ordering

Invite candidates directly in ServiceNow

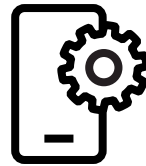

Data prepopulation

Reduces duplicate entry improving efficiency

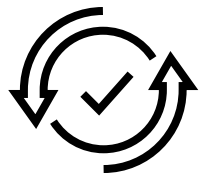

Change tracker

Alerts recruiter to changes made in the background check process

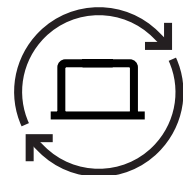

Mobile optimized

Candidates can complete background check using their preferred device

Status updates

Ensure a timely and transparent process

Integration support and automatic updates
