

INTEGRATIONS DONE RIGHT

- **Productized integration**
- **Real-time order and screening status**
- **Configurable account and notification setup**

Recruiting top talent is critical for the success of any organization

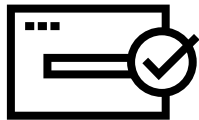

UKG and HireRight have built an integrated solution to consolidate critical recruiting and background screening requirements into one solution to deliver convenience, control, and faster results.

With just a few clicks, recruiters and hiring managers can initiate a pre-employment background check on candidates directly within UKG Pro Recruiting. Once a background check is initiated, information entered into UKG Pro Recruiting is pre-populated in the background check form, reducing duplicate data entry. Then, an email is sent to the candidate to provide any additional information.

Once HireRight conducts the background check, results are visible to the recruiter and/or hiring manager within UKG Pro Recruiting.

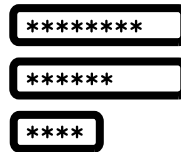

Our integration is easy to implement, with no middleware or development required. Future HireRight solution enhancements ensure maximum long-term ROI. HireRight's dedicated integration team of experienced pre-sales and technical consultants work closely with you to ensure an efficient implementation.

Integration Advantages:

Streamlined ordering

Single sign on

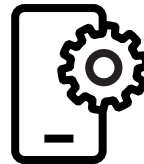

Data prepopulation

Reduces duplicate entry
improving efficiency

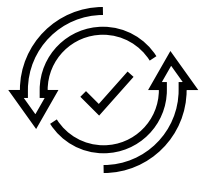

Change tracker

Alerts recruiter to changes made
in the background check process

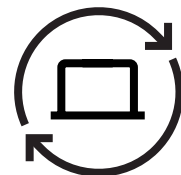

Mobile optimized

Candidates can complete background
check using their preferred device

Status updates

Ensure a timely and
transparent process

Integration support and automatic updates
