HIRE RIGHT ®

INTEGRATIONS DONE RIGHT

- **Productized integration**
- **Real-time order and screening status**
- **Configurable account and notification setup**

## Recruiting top talent is critical for the success of any organisation

Cornerstone and HireRight have collaborated to deliver a pre-integrated solution to help organisations manage their employment screening programs more efficiently, create repeatable and compliant processes, and in turn make better informed hiring decisions.

Highly configurable packages allow users to order any of HireRight's 200+ global background screening services in just a few clicks. Once the order is submitted, results begin appearing in real-time without ever exiting Cornerstone's Recruiting Cloud talent management system. Candidate provided information from the Cornerstone Recruiting Cloud automatically pre-populates the HireRight background check form, reducing duplicate data entry, improving accuracy, and driving administrative efficiency.

The integration is easy to implement, with no middleware or development required. Future HireRight solution enhancements help promote long-term ROI. HireRight's dedicated integration team of experienced pre-sales and technical consultants work closely with you to ensure an efficient implementation.
Through the partnership and integration solution, HireRight and Cornerstone are assisting mutual customers to more effectively leverage their investment in recruiting and background screening solutions for truly optimised performance.

HIRERIGHT + CORNERSTONE

PARTNER DATA SHEET
