The integration between Vertafore and HireRight helps to simplify the onboarding and background screening processes into a seamless real-time solution that is easy to use and deploy.

Streamline Your Onboarding Workflow

Once an insurance producer has uploaded their contracting paperwork into the Sircon Onboarding & Self-Service module, the background screening process can begin. When the screening is complete, your team will be notified and a link to the report will appear within the Vertafore system. Pre-mapped fields will also help to eliminate duplicate data entry and increase accuracy, and real-time status updates help support a timely and transparent process.
