

# DELIVERING AN **EFFICIENT** IMPLEMENTATION

HireRight customers utilizing the iCIMS Prime integration unify their end-to-end recruiting experience with access to order, run and view results all from within the iCIMS Platform!

The iCIMS Prime integration, called a Connector, allows recruiters to order HireRight background checks and/or drug tests for domestic or international locations with just a few simple clicks. Recruiters can create their own screening packages, and capture all information necessary to request a background check from the

candidate smoothly. Candidate information transfers from iCIMS to the background check form to reduce duplicate data entry, administration and time. Once the order is submitted, a summary of background check results will appear.

Future HireRight solution enhancements ensure maximum long-term ROI for numerous iCIMS and HireRight mutual customers to better leverage their investment in recruiting and background screening solutions.
