

## HireRight and Beeline Partner to Offer Streamlined Background Screening for Contingent Workforce

HireRight and Beeline offer a pre-developed integration, connecting platforms to help mutual customers ensure their contingent workforce is consistently screened based on their company standards, helping to improve workflow and time to hire.

With HireRight's [Extended Workforce Screening solution \(EWS\)](#) your suppliers register for the service, order background screening checks you require and then are invoiced directly by HireRight. HireRight's EWS allows your organization (the "Sponsor Company") to set specific screening requirements that your suppliers must adhere to, helping ensure consistent screening is conducted across supplier companies. Pricing is set by your organization and will apply to all suppliers registered with the program.

HireRight's [Applicant Center](#) is mobile-optimized to enhance the candidate experience.

### Extended Workforce Screening with HireRight

Define consistent and robust screening standards for your extended workforce across your supplier

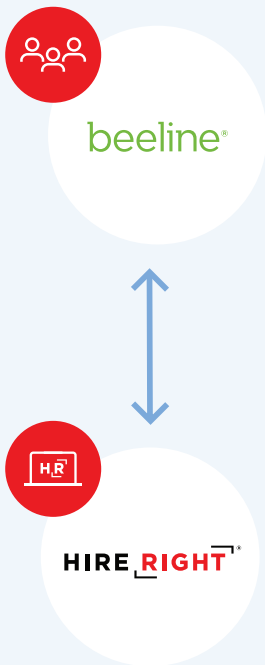

Promote vendor compliance with your specific screening standards

Help mitigate unnecessary risks associated with your extended workforce

Get the oversight and control you need for confidence in your extended workforce screening across your supplier network

**Beeline's Extended Workforce Platform addresses the complexities of modern external workforce management** with a comprehensive solution for automating various aspects of the sourcing and management of contingent workers.

**Employers worldwide trust HireRight for their employment screening needs.** HireRight's flexible, tailored screening solutions allow organizations the ability to create different packages for different positions and include more than 150 different service offerings in more than 200 countries and territories managed from a single global platform.
