INTEGRATIONS DONE RIGHT

- **Productized integration**
- **Real-time order and screening status**
- **Configurable account and notification setup**

## Recruiting top talent is critical for the success of any organisation

HireRight has partnered with Jobvite and built an integrated solution to consolidate critical recruiting and background screening requirements into a seamless solution to deliver convenience, control, faster results, and better quality of hires.

The integrated solution provides comprehensive features to seamlessly manage a background screening program within Jobvite Hire. It supports key use cases for order management, transaction management, and result management. Through a single interface, recruiters can order HireRight global background checks with just a few simple clicks within Jobvite.

Candidate information transfers from Jobvite to the background check form reducing duplicate data entry, administration, and time. In addition, real-time updates are provided that allow organisations to view results from each individual search (including package searches) as they are completed.
Our integration is easy to implement, with no middleware or development required. Future HireRight solution enhancements ensure maximum long-term ROI. HireRight's dedicated integration team of experienced pre-sales and technical consultants work closely with you to ensure an efficient implementation.

# Integration Advantages:
