THE STORY

This technical digital agency specialises in customer experiences. They create and design interactive screens for clients across the retail, hospitality, restaurant and tourism sectors. At the beginning of COVID-19, many of their clients' sites and stores were closed, which meant they couldn't set up and manage these screens.

Now that lockdown restrictions have lifted, the business is not only fulfilling their pre-COVID orders; they're also ready to focus on growth. They have a Barclays CBILS loan running alongside a £750k MarketFinance CBILS, which is providing them with the funding they need.

With no interest or fees for 12 months from either their Barclays or MarketFinance facility, the business has affordable, hassle-free funding only made available through our strong partnership.
