THE STORY

This business is the leading provider of poster advertising displayed in hospitals across the UK. They operate as a middleman selling ad space at hospitals to businesses, with one of their major clients being the NHS. With major debtors paying on 30–60 day terms, the business needed a facility that would help bridge the gap.

Working alongside a £100k CBILS loan from Barclays, the business was approved for a £100k MarketFinance CBILS with no debenture or Personal Guarantee. This means they were able to get a quick cash injection as well as an ongoing cash flow solution that will grow with their business.
