CBILS alongside a
bank CBILS loan

THE STORY

This family-run business works closely with the care home sector, specialising in construction, development and facilities management. Services like this have never been more essential as the UK grapples with the outbreak of COVID-19.

When the government announced the launch of CBILS, the business jumped at the chance of getting a CBILS loan through their bank. As demand continued to increase and lockdown restrictions began lifting, it became clear that they'd need even more funding to keep up.

The business now has a £250k MarketFinance CBILS facility that provides ongoing funding alongside their £250k CBILS loan. Because the facility is backed by their outstanding invoices, the funds they withdraw are repaid as soon as the business is paid by their care home clients.

With no interest or fees for 12 months and no personal guarantees required, CBILS is providing this business with hassle-free affordable funding at a time when they need it most.
