SOLUTION

Selective invoice discounting

HOW MARKETFINANCE HELPS

- Scaramouche + Fandango has to pay suppliers up to 60 days in advance, but might not receive payment from their customers until 90 days after they invoice.
- With selective invoice discounting, they unlocked funds to help with day-to-day operations and international expansion.

IN THEIR WORDS

“We would most definitely recommend [MarketFinance], without hesitation; they're a refreshing change to what else is available on the finance market.”

Ian Linaker,
Co-founder, Scaramouche + Fandango
