THE STORY

This creative brand agency specialises in providing strategic branding services to major clients such as Nestlé, Shell and Tesco. COVID-19 caused some of their clients to delay their agreed 60-day payment terms with them. This meant they needed a facility to help with stretched terms so that they could continue growing and take on new creative projects.

With a Barclays £200k CBILS loan working alongside a £200k MarketFinance CBILS, the business is now taking control of their cash flow that was impacted by COVID-19.
