

HOW TO SCHEDULE A FREE PHOTOSHOOT*

Professional photography can be expensive, that's why DoorDash will pay a professional photographer to come to your restaurant and take photos of your dishes — all for free.

HOW IT WORKS

You get up to 20 mouthwatering photos of your menu items and a header shot of your store to make your store page pop, the only cost to your business is the food itself.

For those with the **Premier Partnership Plan**, DoorDash will also reimburse up to \$200 of your food costs, meaning you can take advantage of this professional photoshoot at no additional cost to your business.
