Get quality meals with reliable delivery

Our Dashers make sure your meals are delivered safely and arrive at the expected time.

Complex orders, made simple

Easily place an order for your desired meal by adding it to the shared group cart via a link provided by the cart organizer or admin. The organizer can even schedule orders in advance.

Feel more satisfied and productive

85% of employees receiving meal benefits feel more appreciated and more satisfied at work. 79% receiving meal benefits feel more productive in their jobs.*

Focus on the day ahead, not just lunch

Employees spend an average of 17 minutes a day (68+ hours a year) on meal preparation during the work week. DoorDash for Business handles mealtimes, so you can stay focused on the day's tasks.

Here's how it works:

Receive a shared cart link from the admin and browse meals from one or more restaurants.

Select your desired dish based on the admin's pre-set spending limits.

Everyone's orders in the cart are submitted as one order, which arrives fresh and at the correct time.
